

Органы сердечно - сосудистой системы

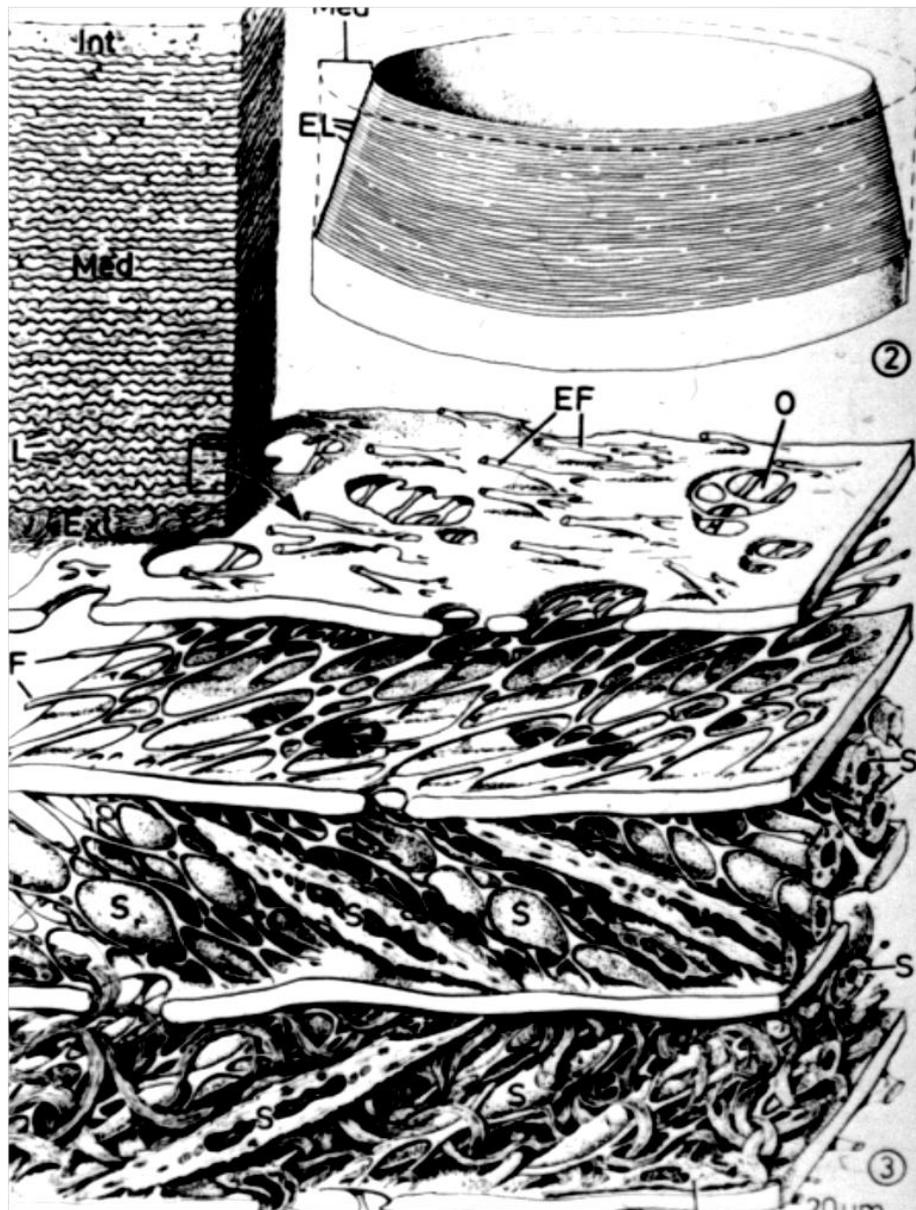

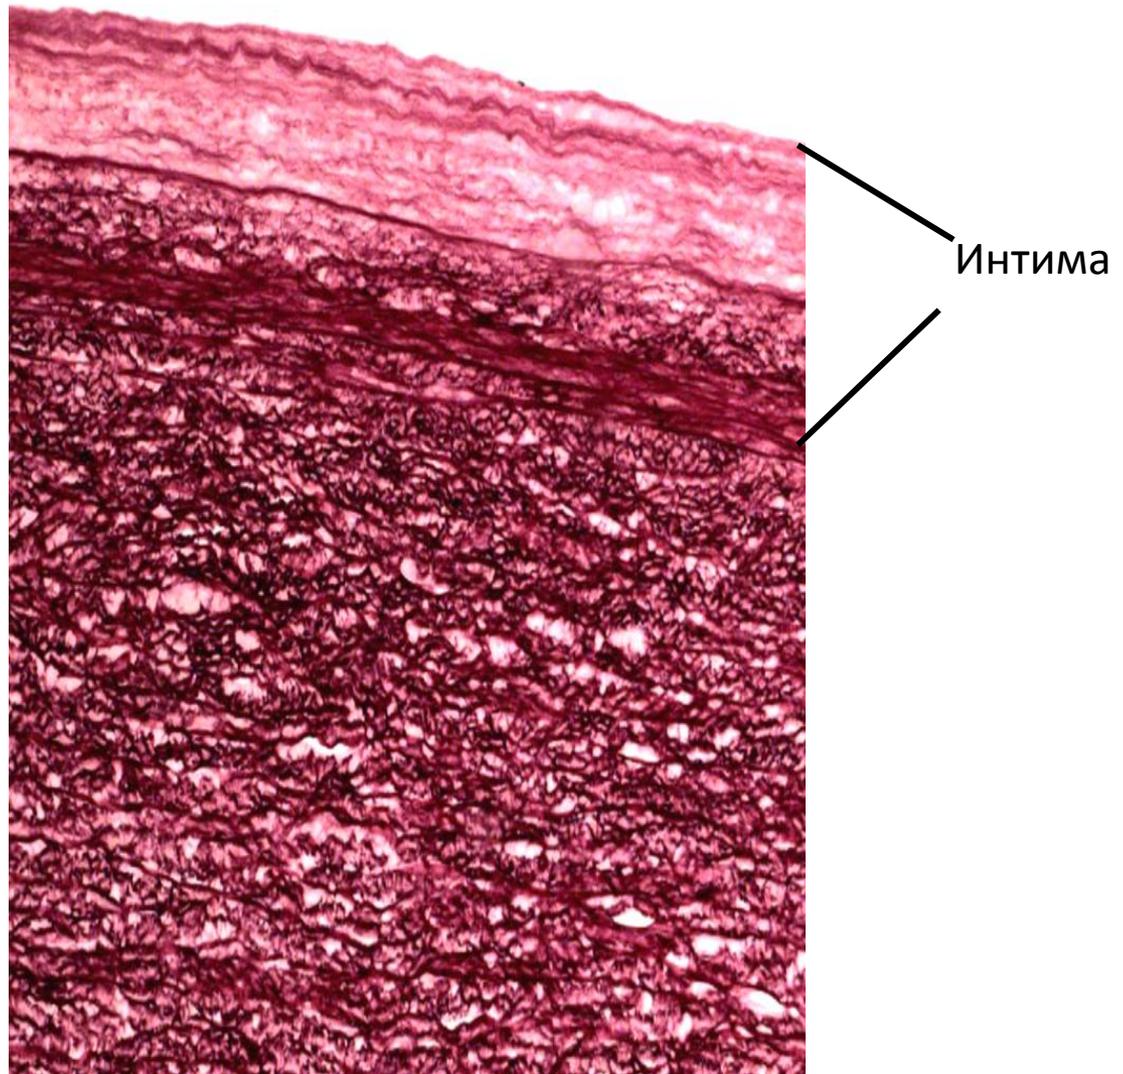

Схема строения аорты

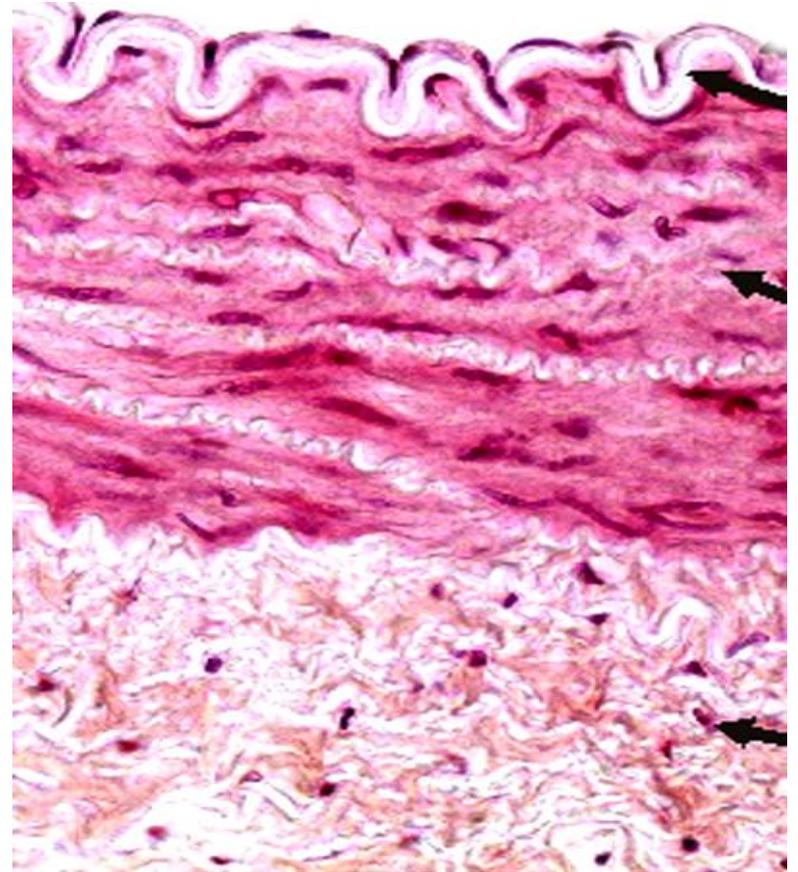

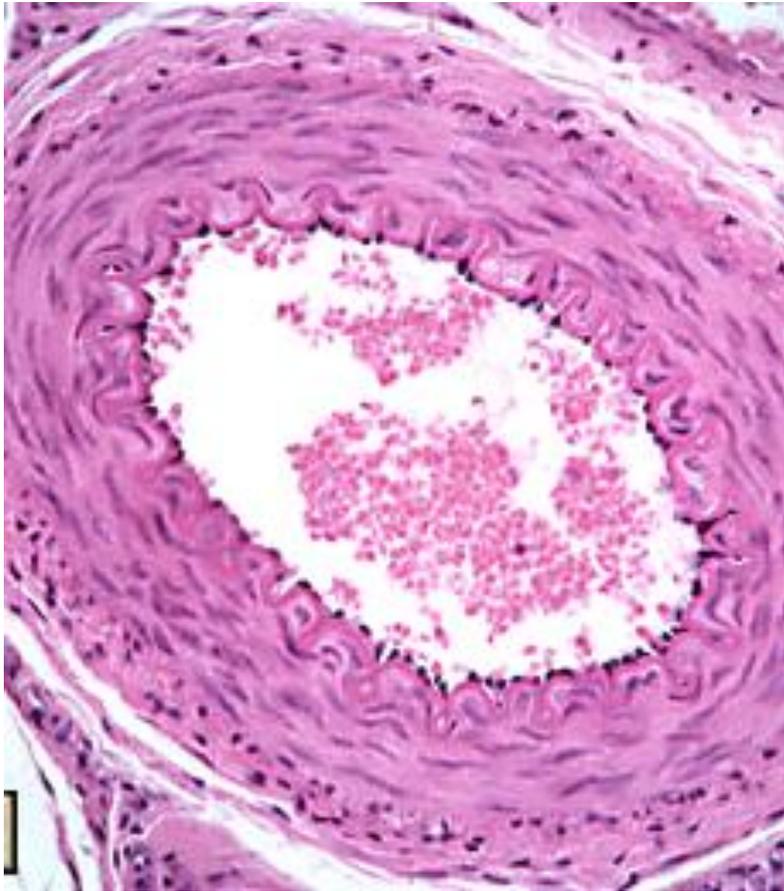

Окончатые эластические
мембраны t. media аорты

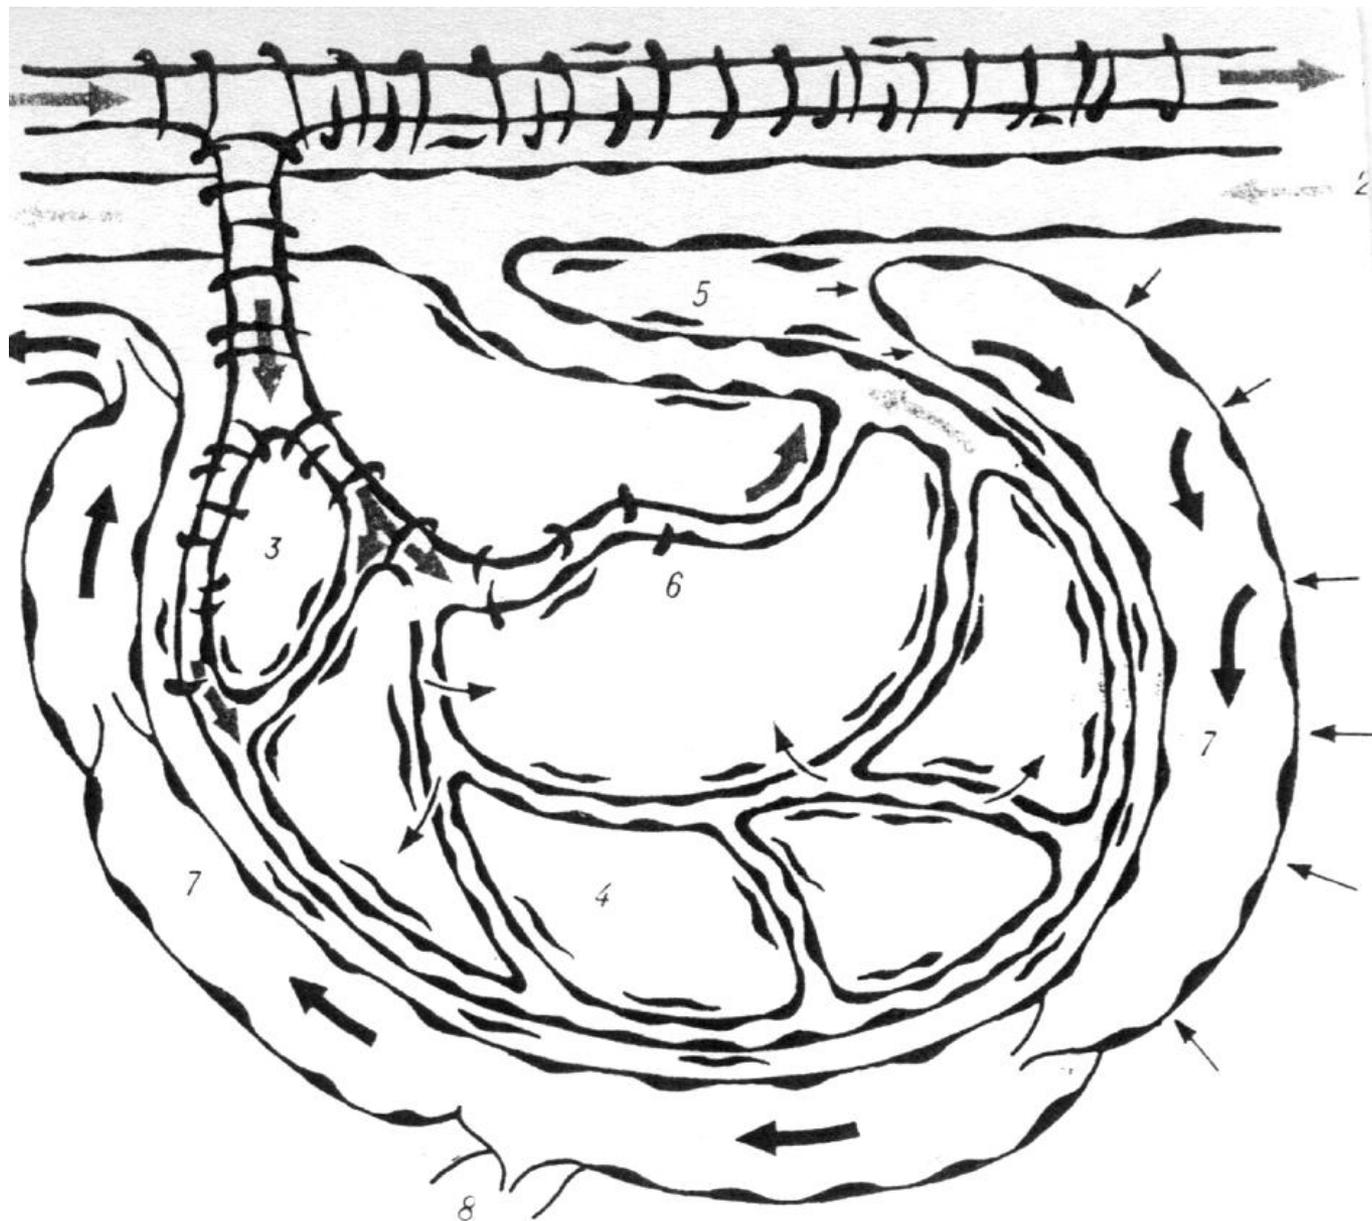

Интима и средняя (частично) оболочка аорты

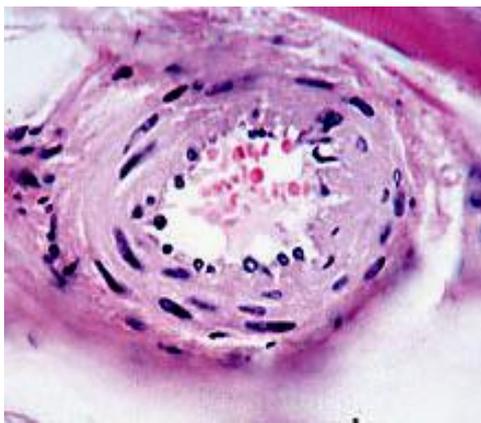

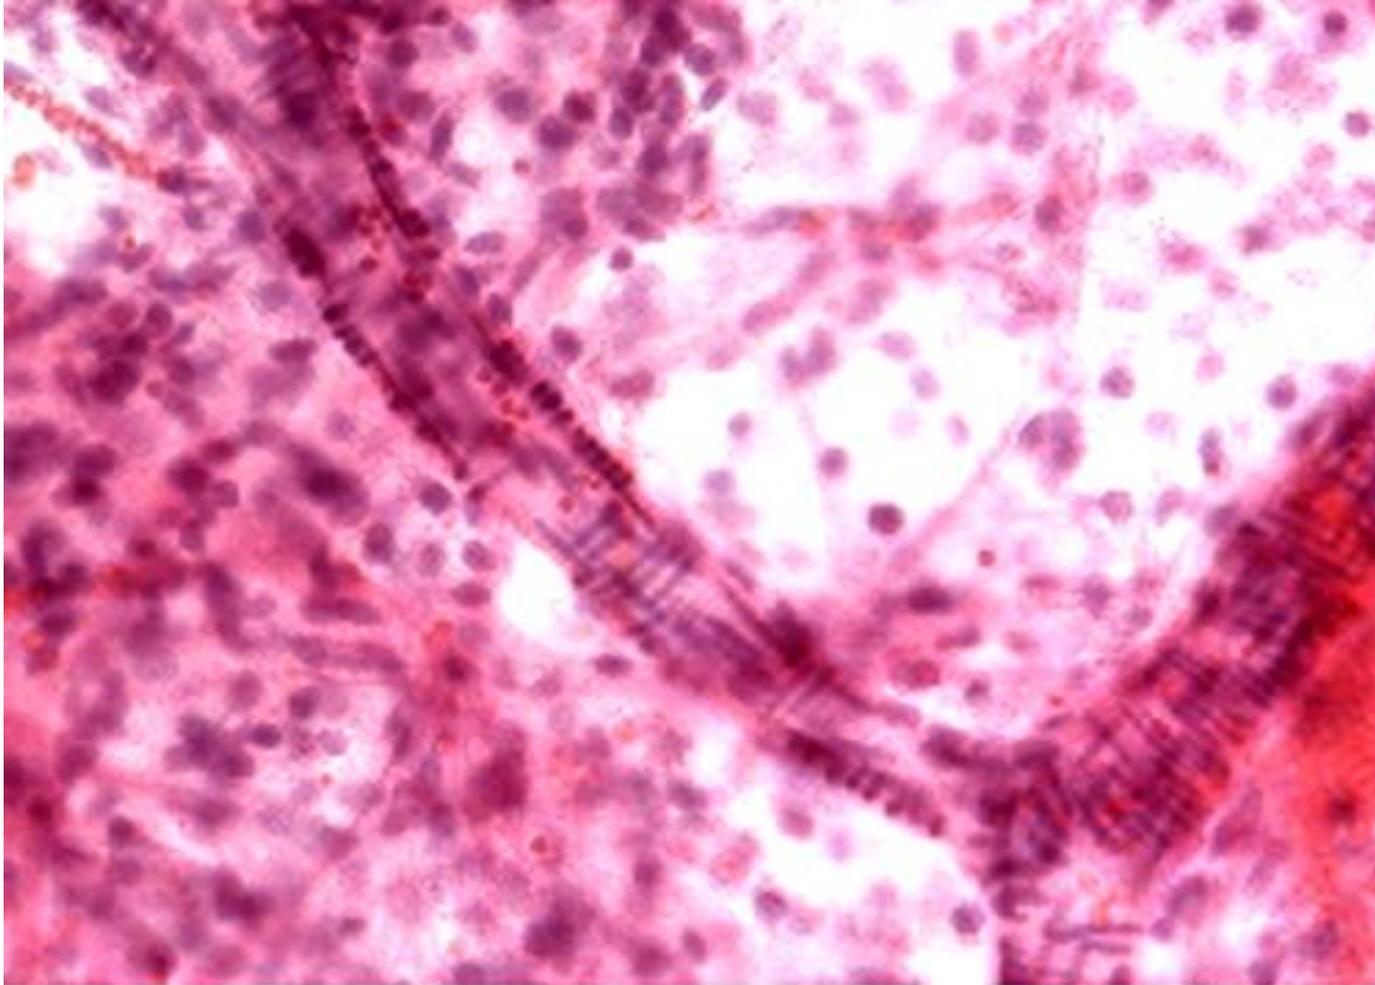

Артерия мышечного типа (схема)

Артерия мышечного типа, препарат

Сосуды микроциркуляторного русла

Артериолы

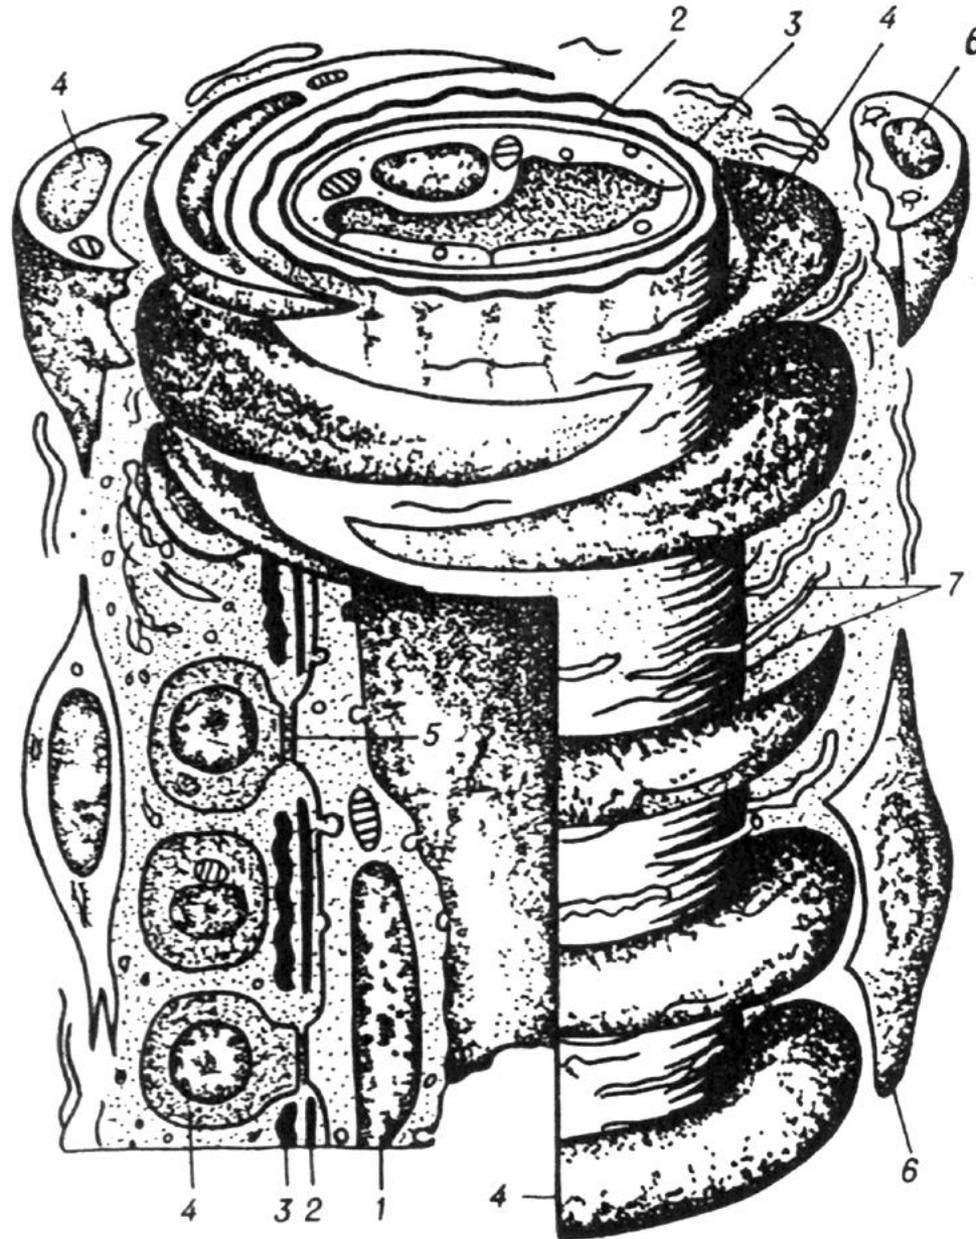

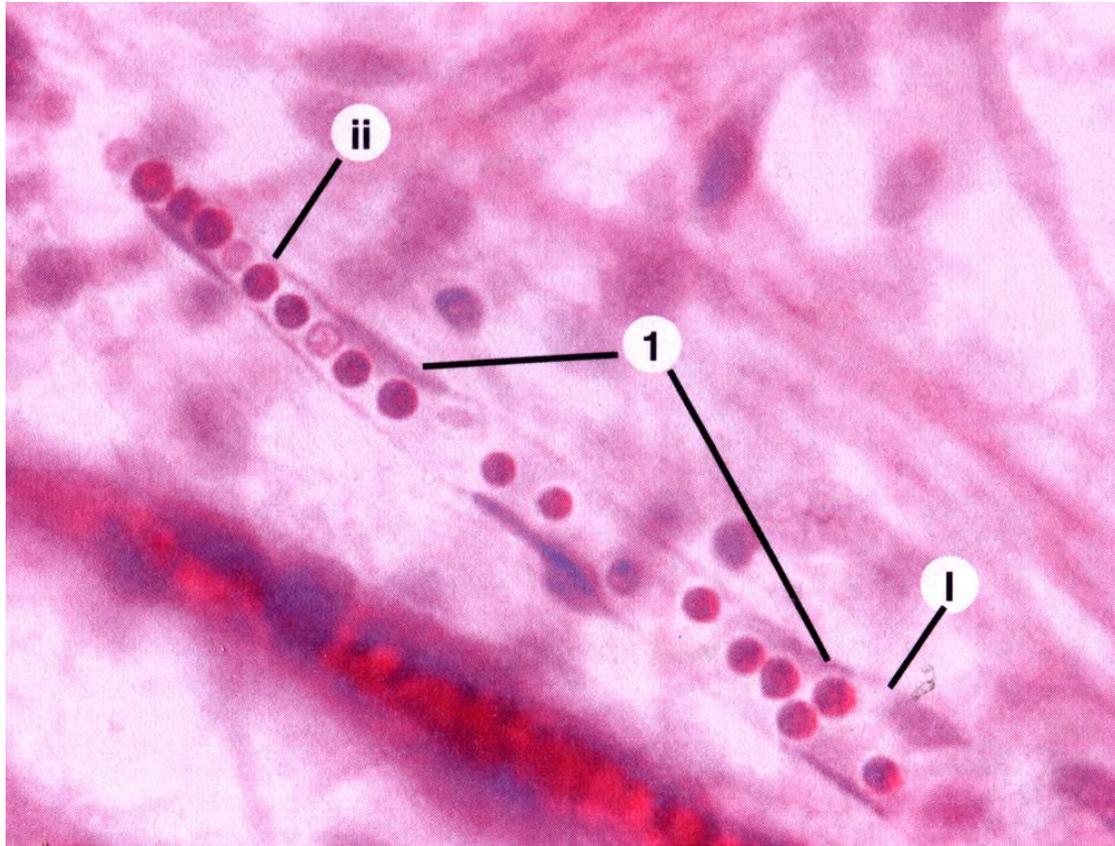

Схема строения артериолы

Капилляр мягкой оболочки мозга

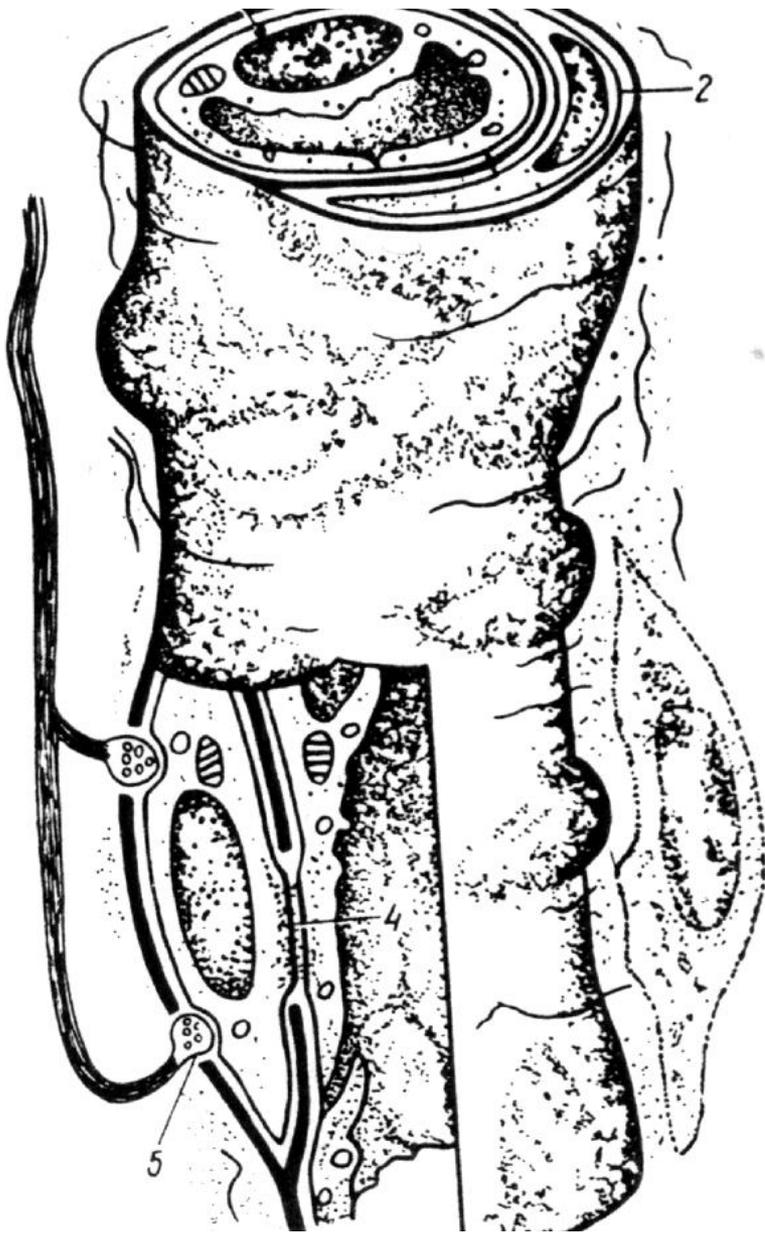

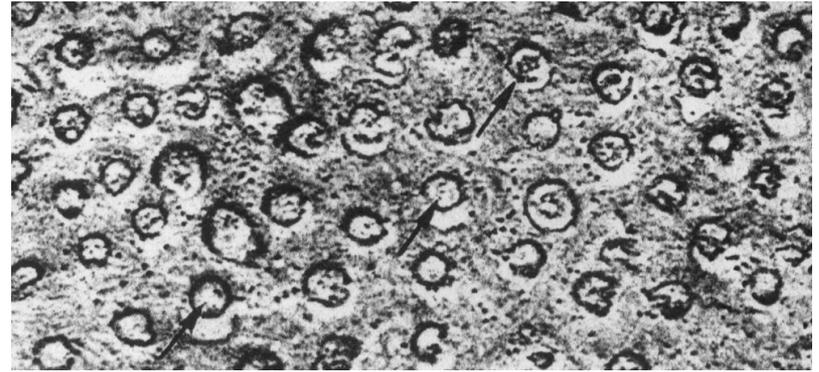

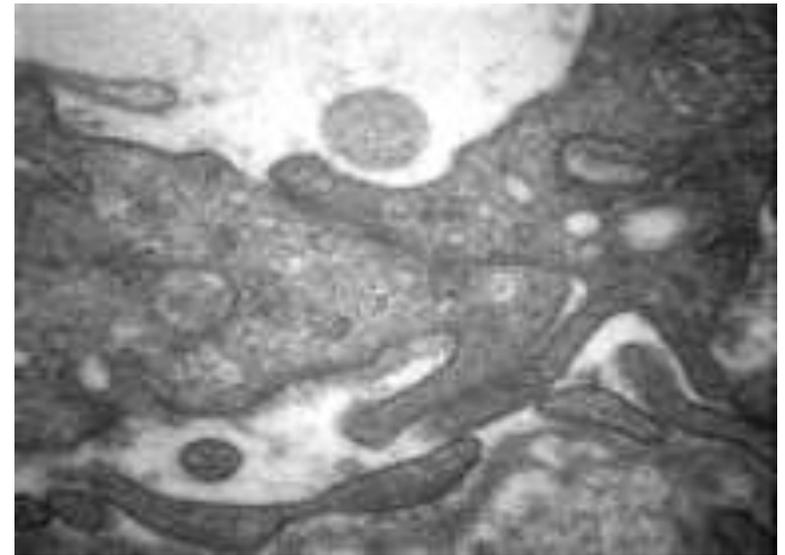

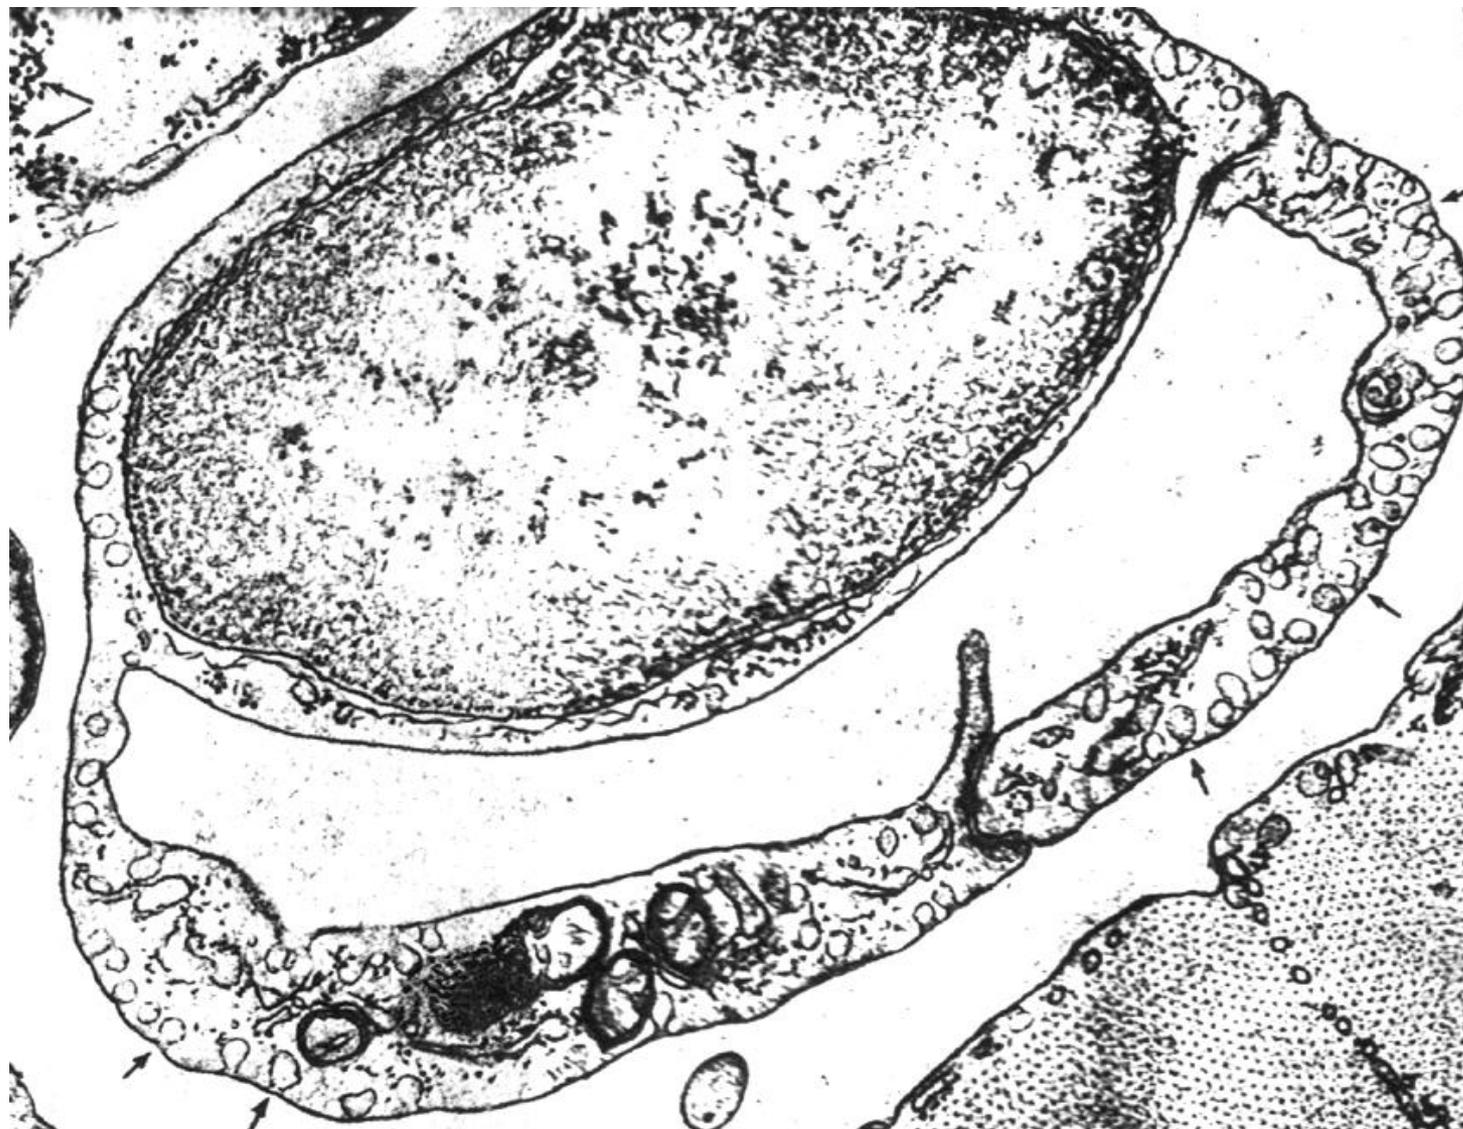

Схема строения капилляра

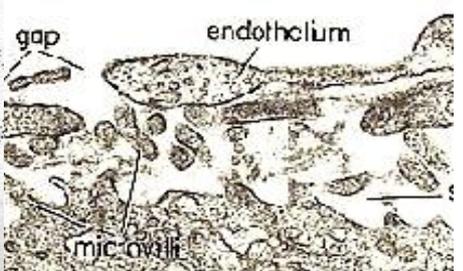

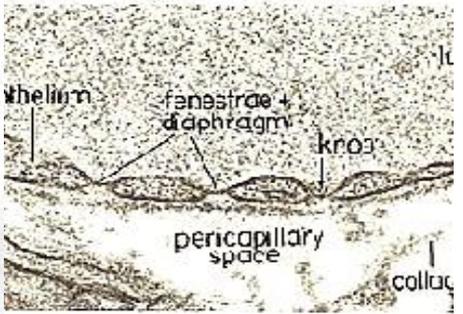

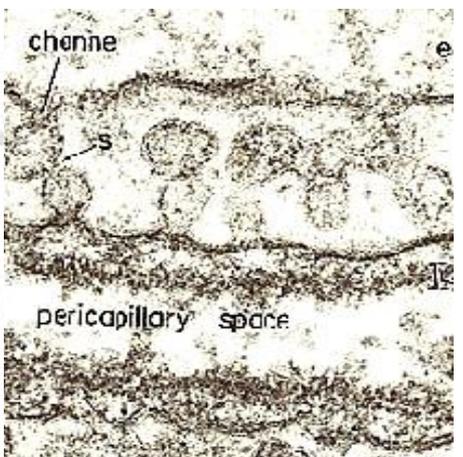

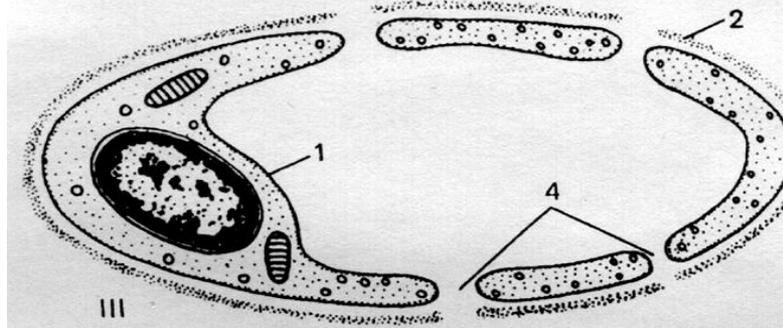

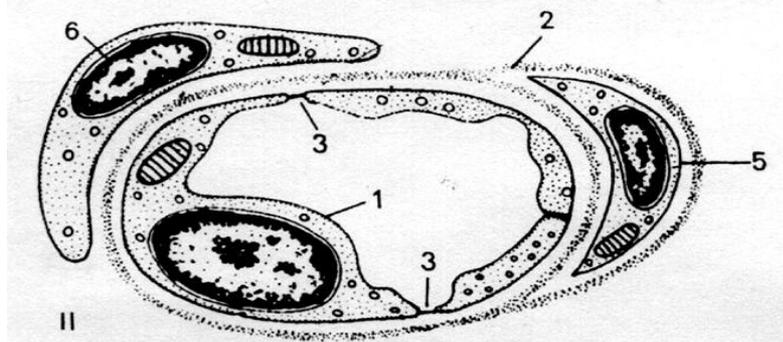

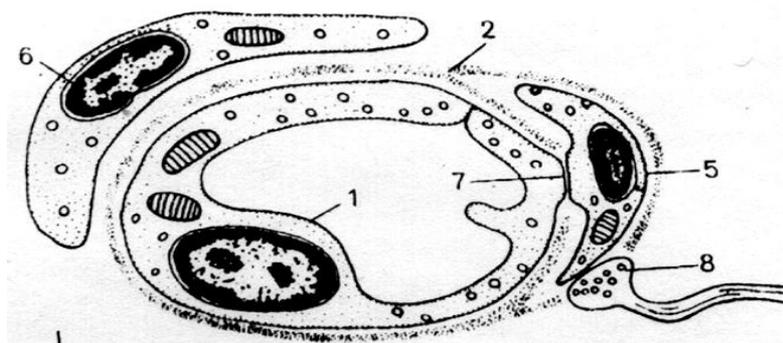

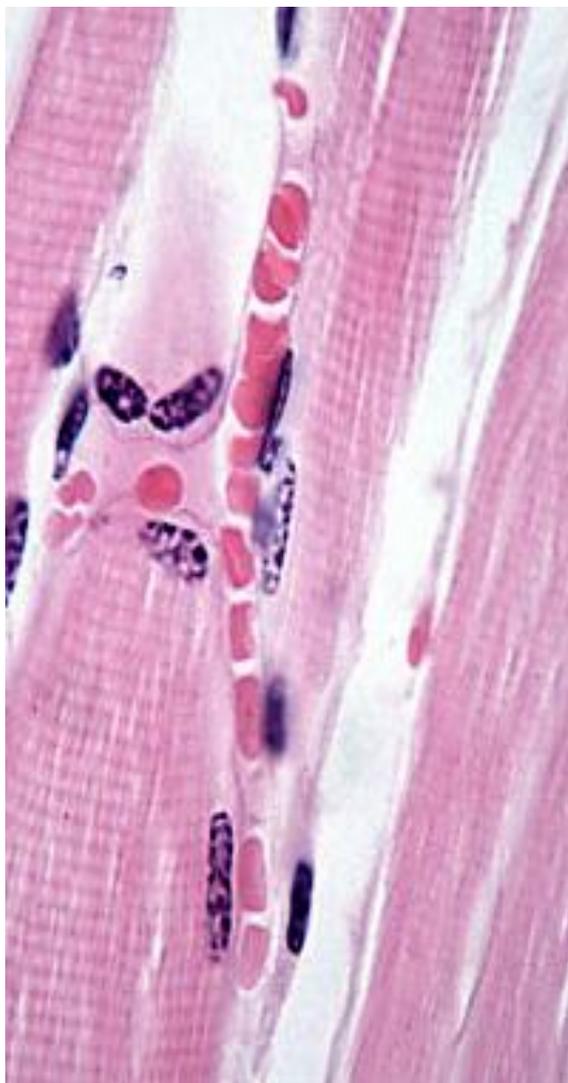

Поры в эндотелии капилляра

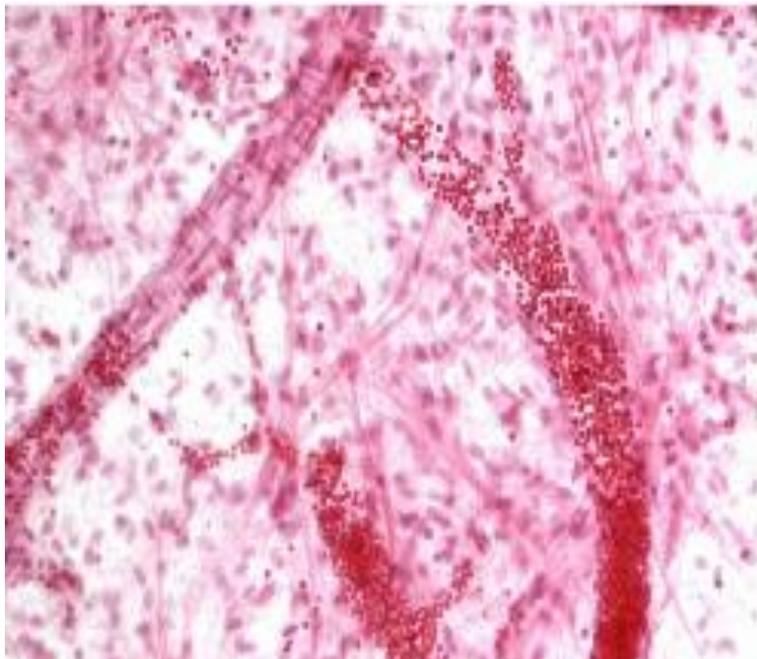

Контакт клеток эндотелия сосуда

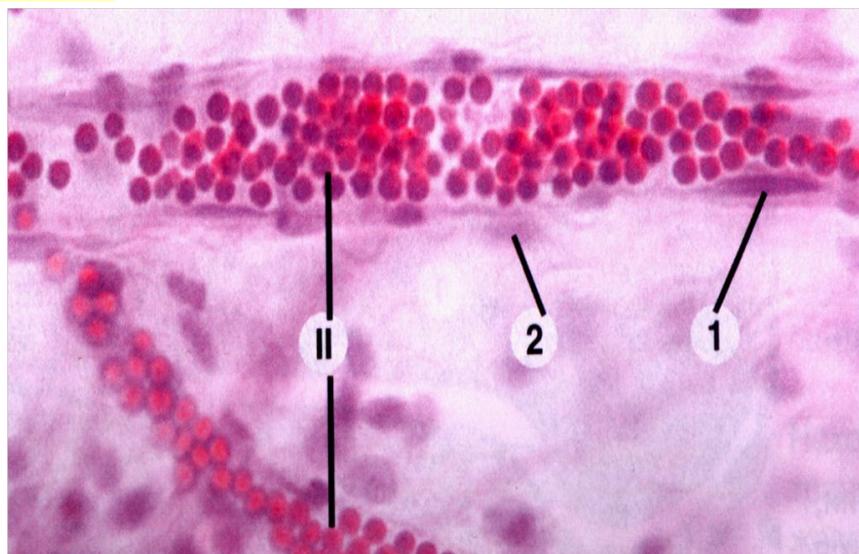

Капилляр 1- го типа

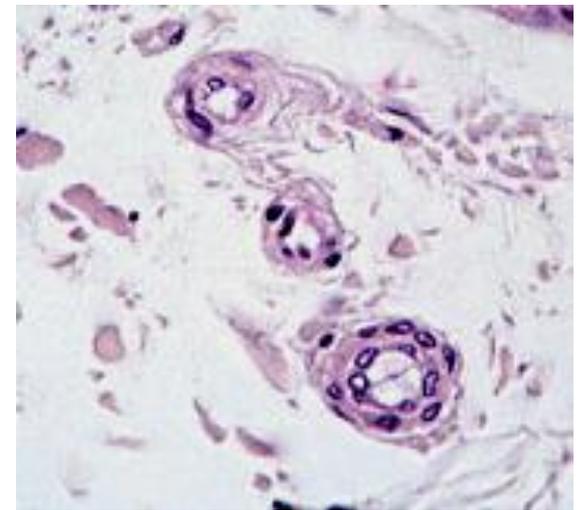

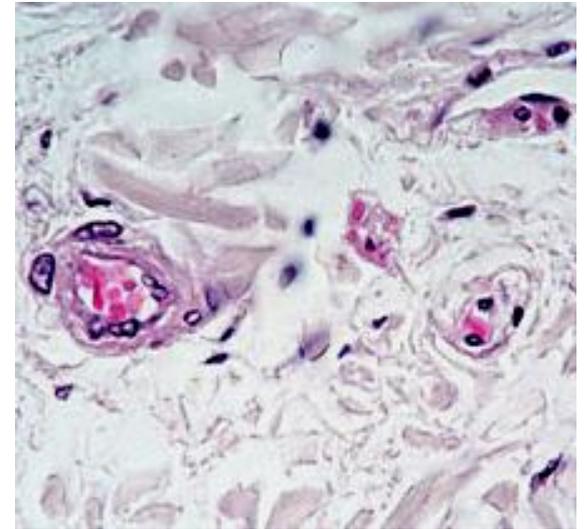

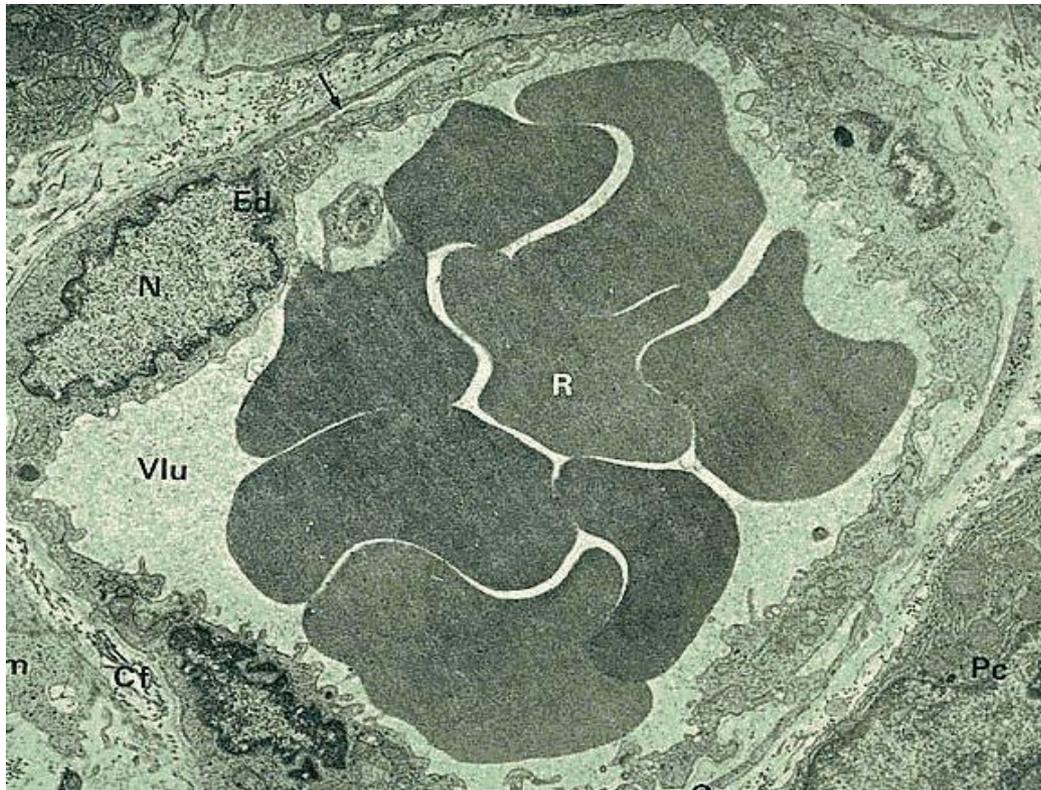

Капилляры

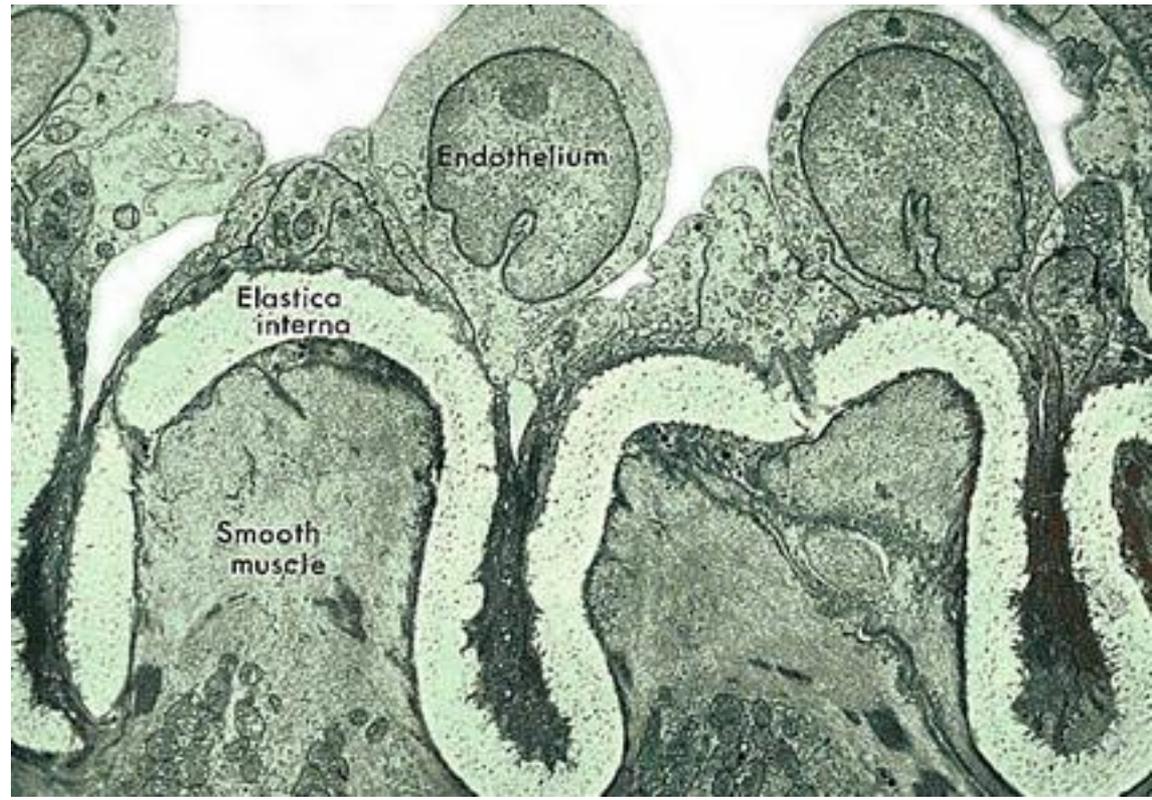

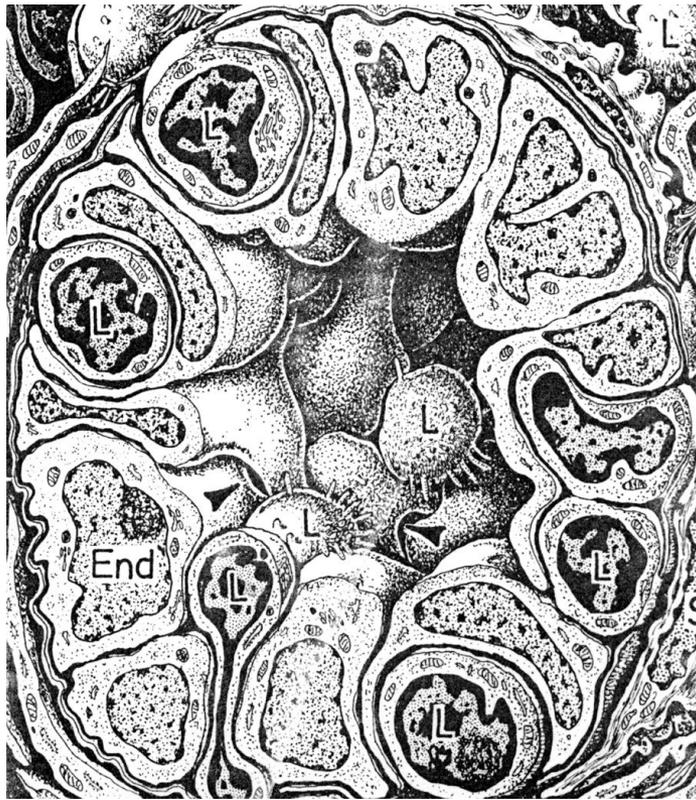

Артериолы и вены

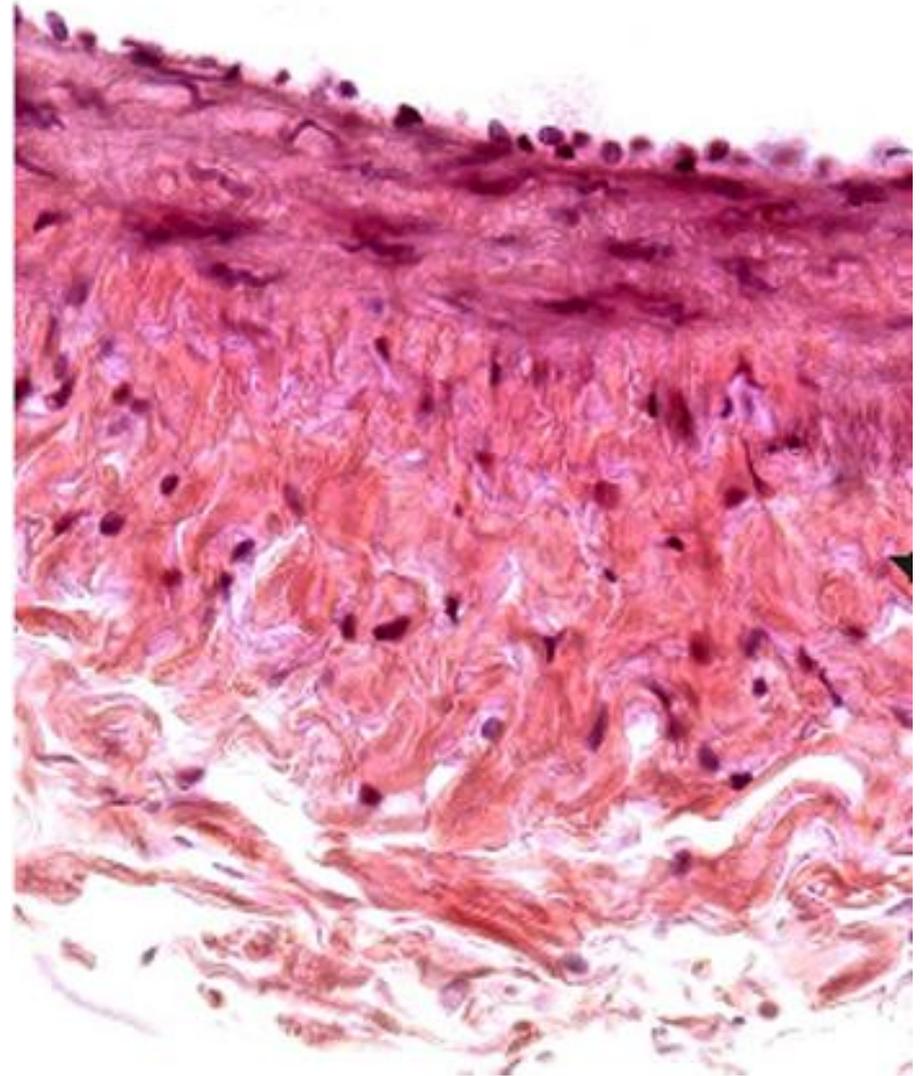

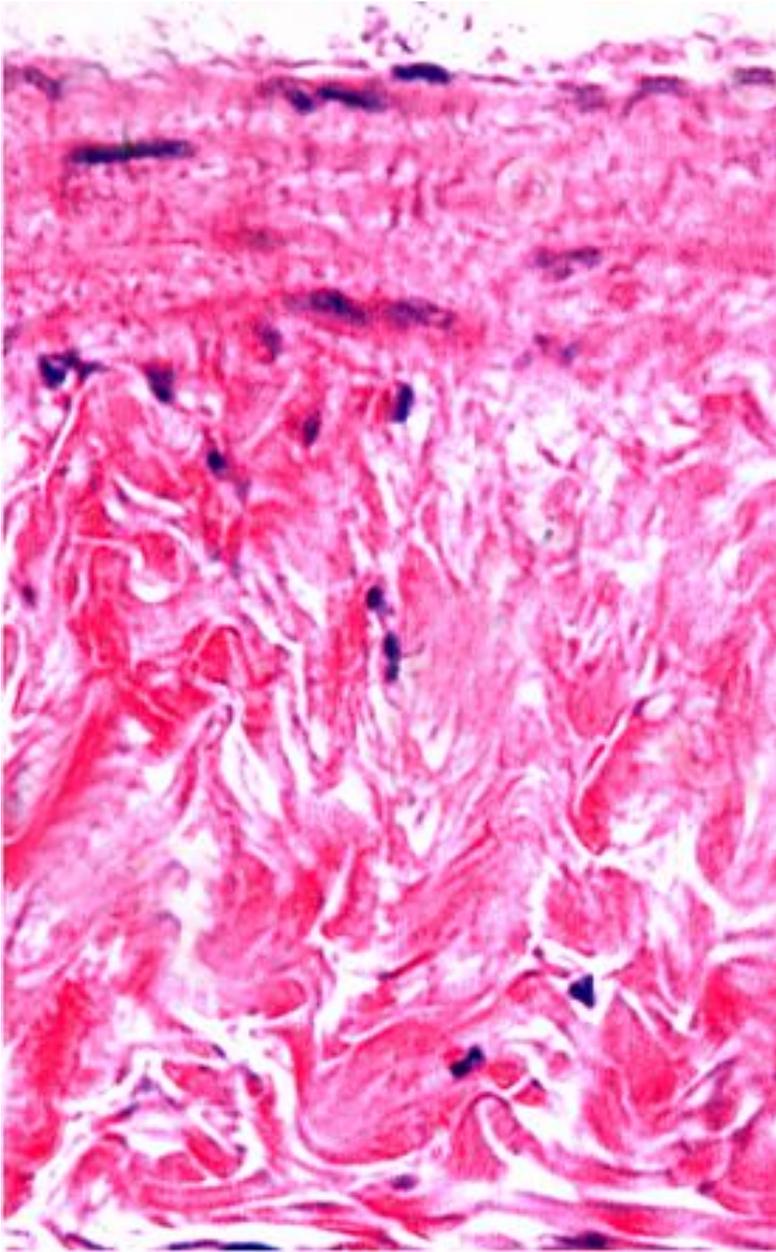

Вены

Венулы разного калибра

В посткапиллярной венуле
замечателен высокий эндотелий

Строение вены

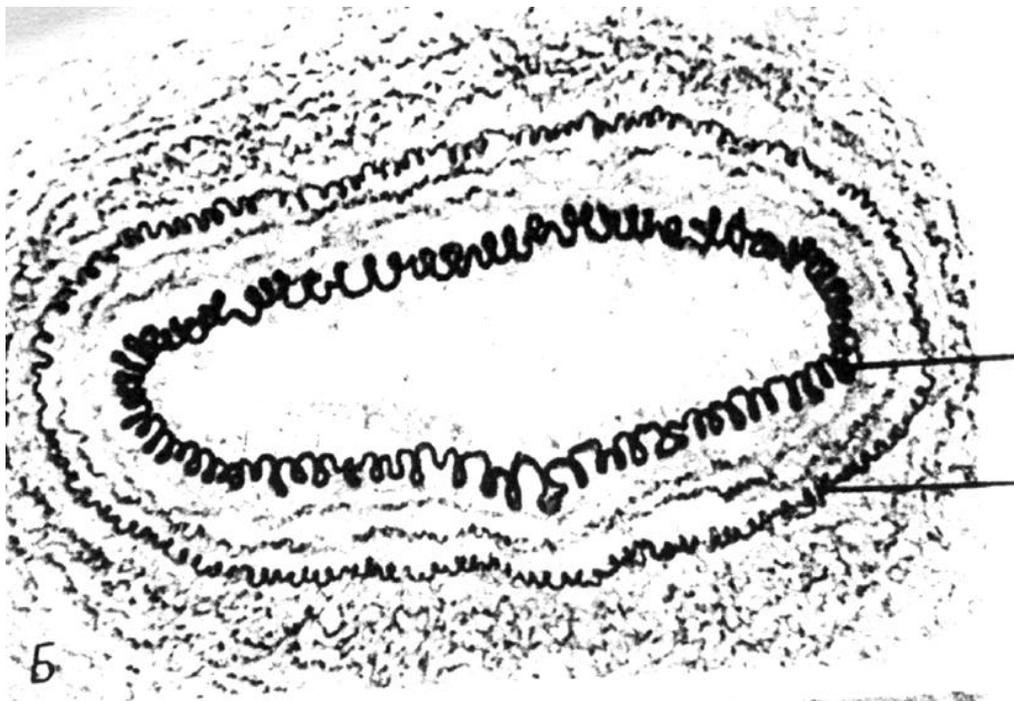

Клапаны вены

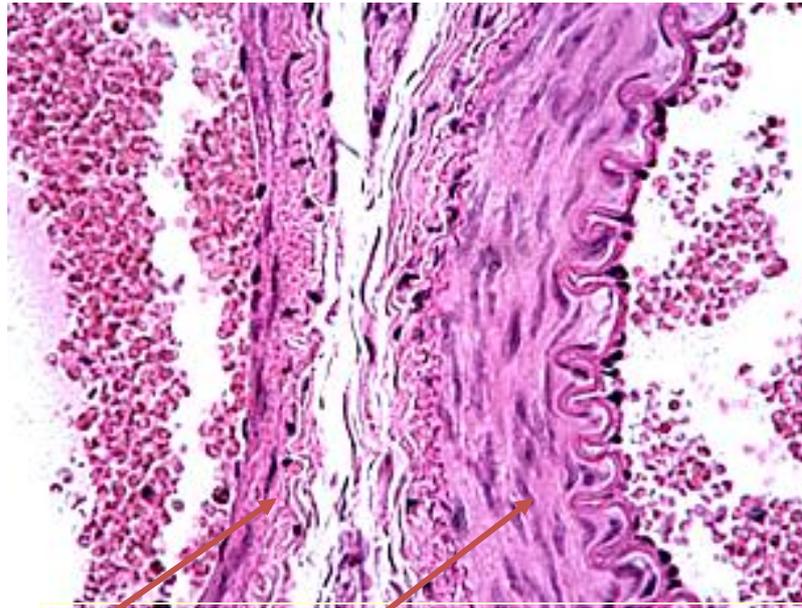

Артерия мышечного типа

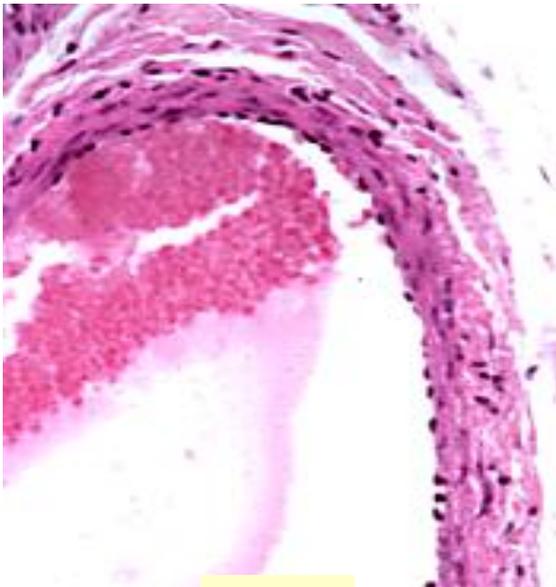

Вена мышечного типа

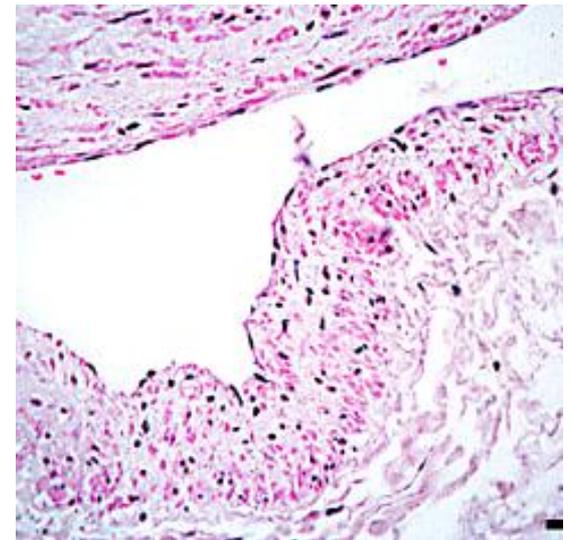

Артерия и вена
мышечного типа

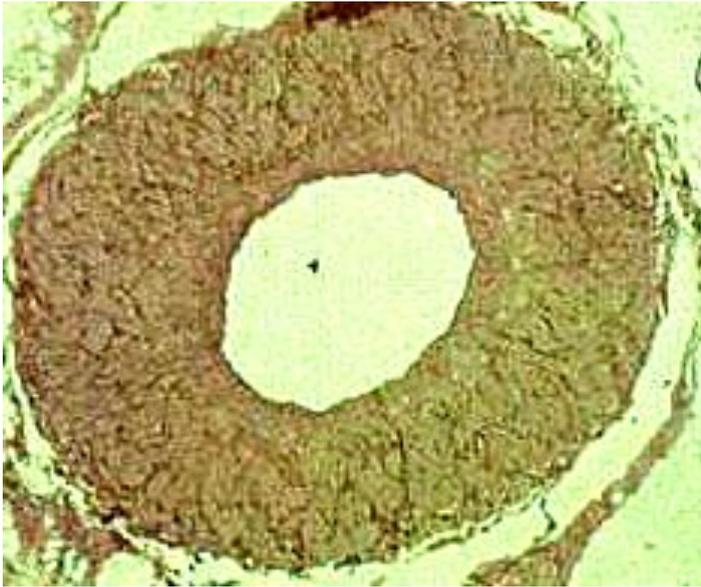

Вена и артерия мышечного типа

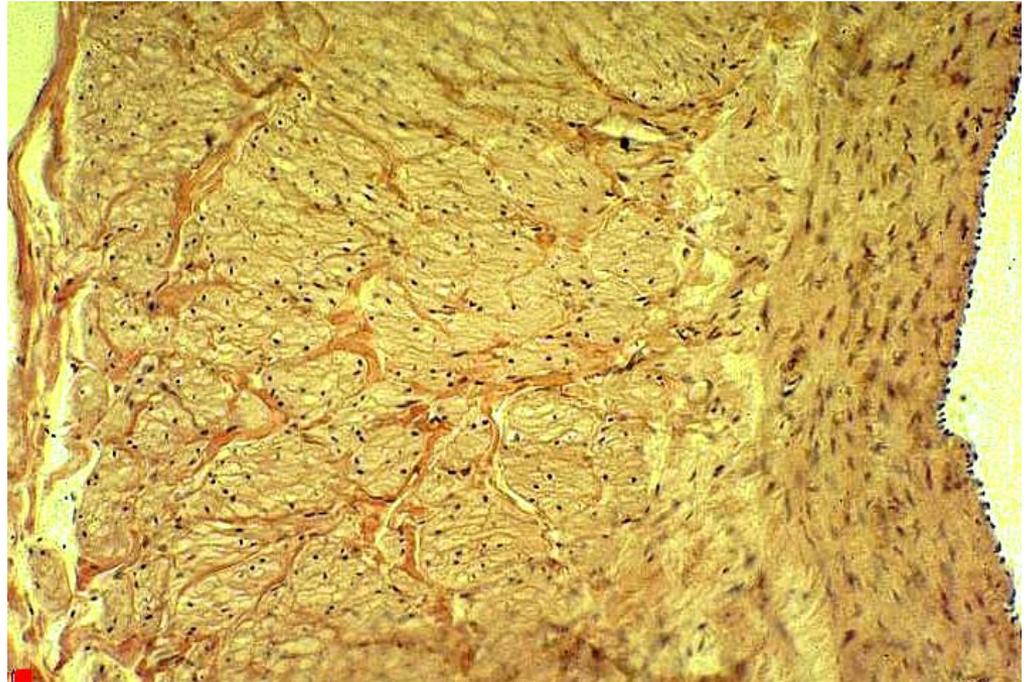

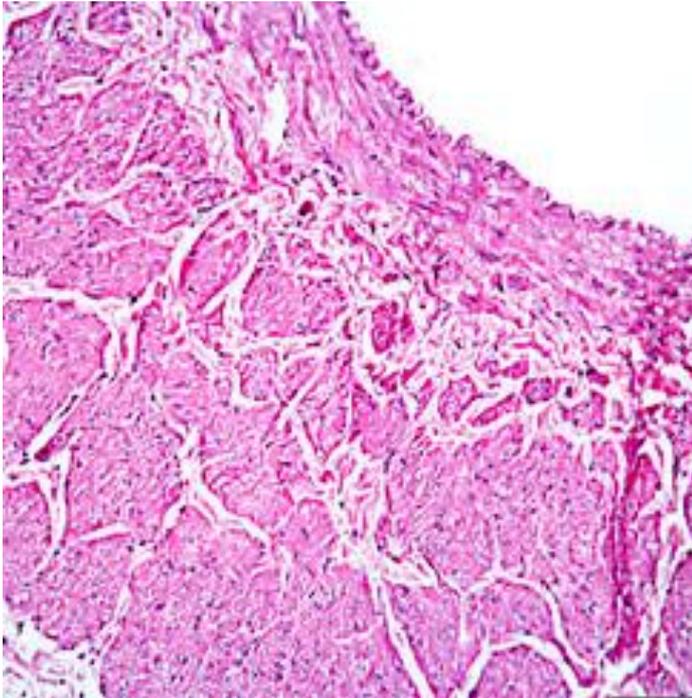

Вена

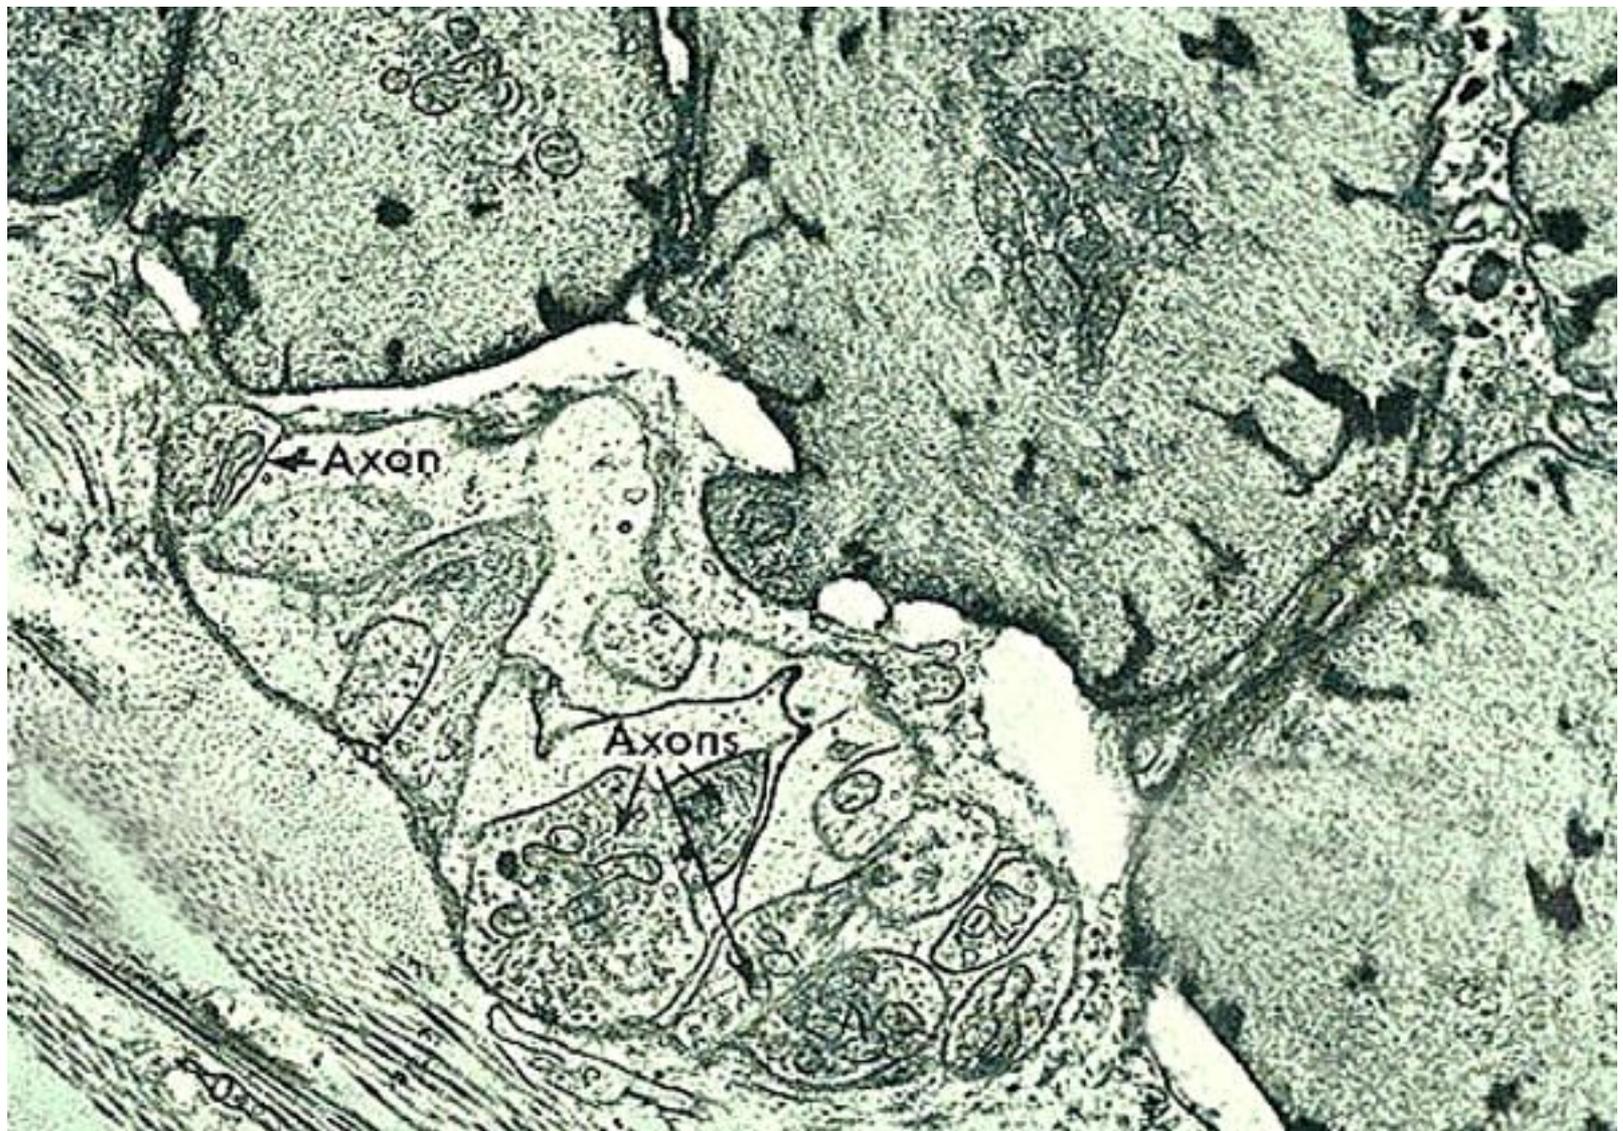

Вена

Нижняя полая вена

Иннервация гладких мышечных клеток
кровеносного сосуда

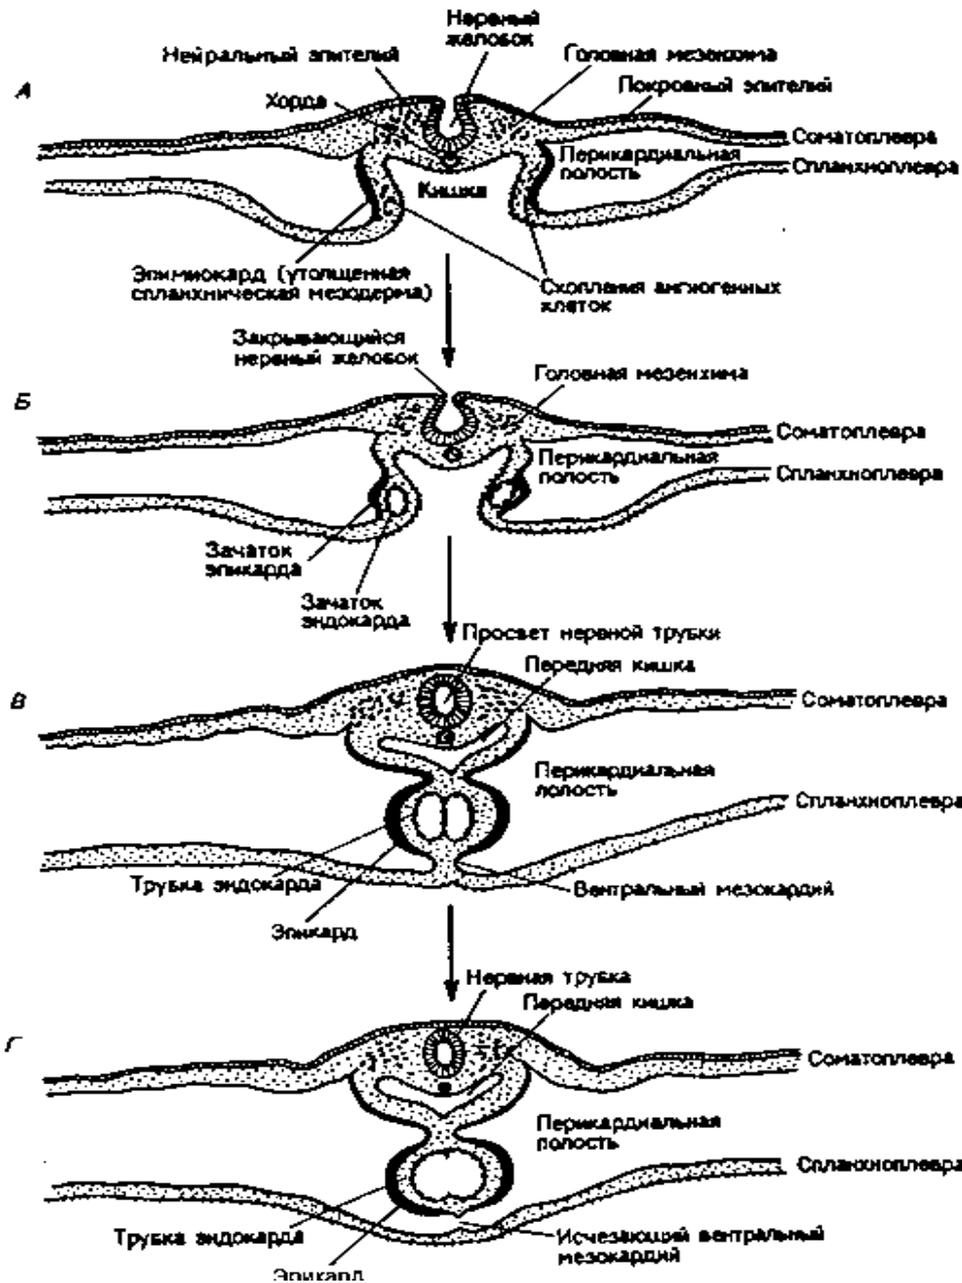

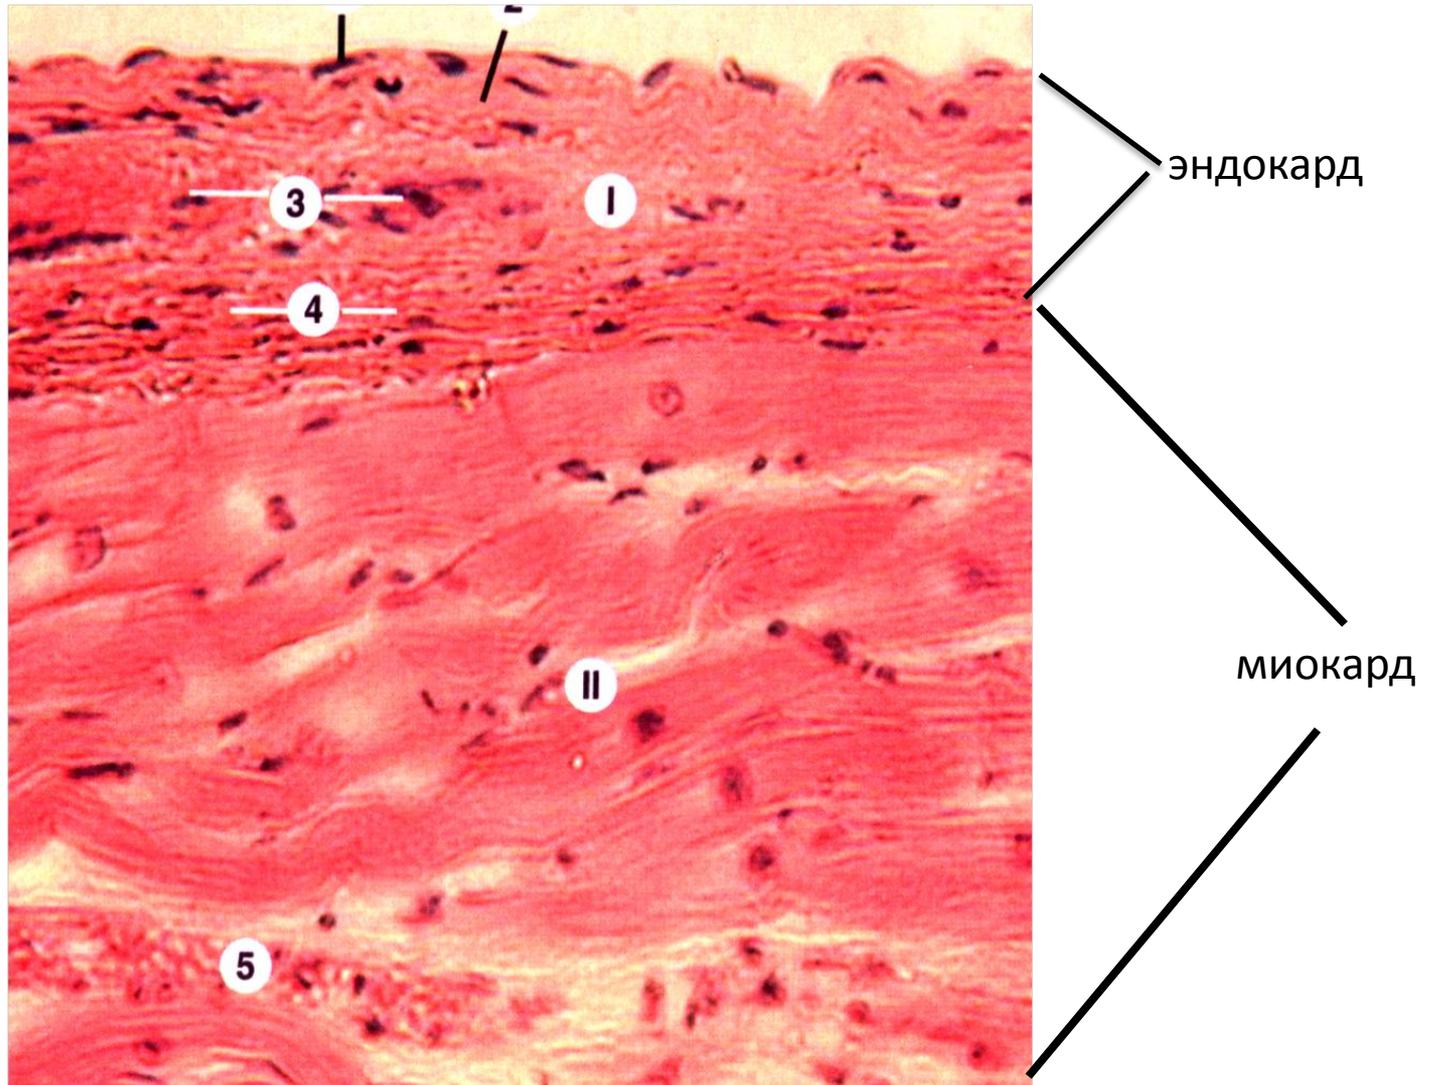

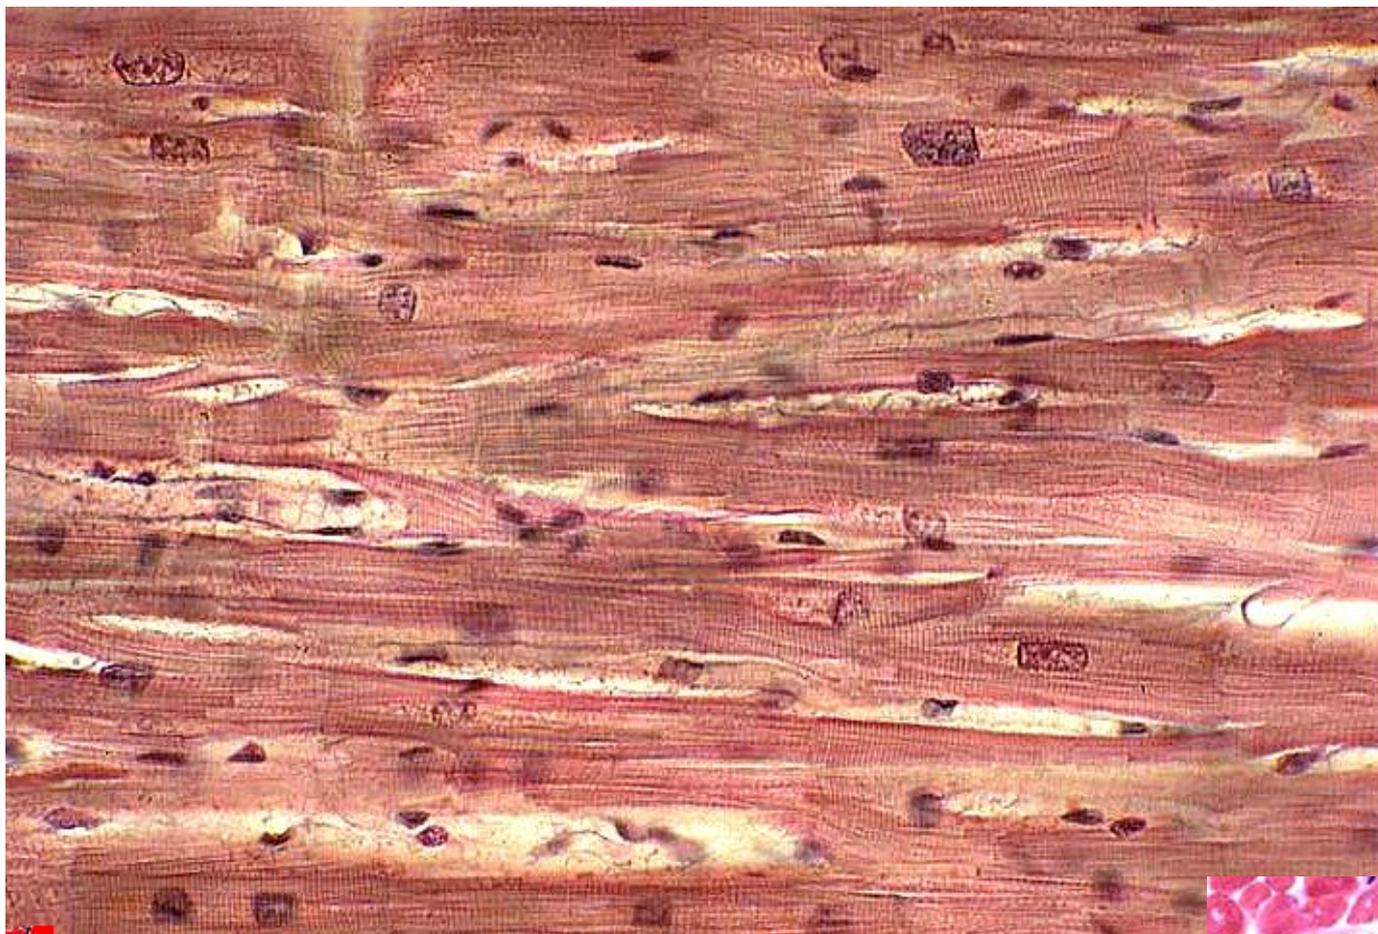

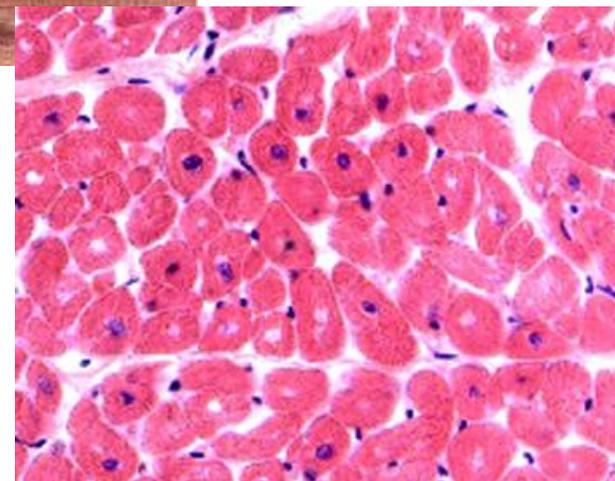

Схема эмбрионального развития сердца

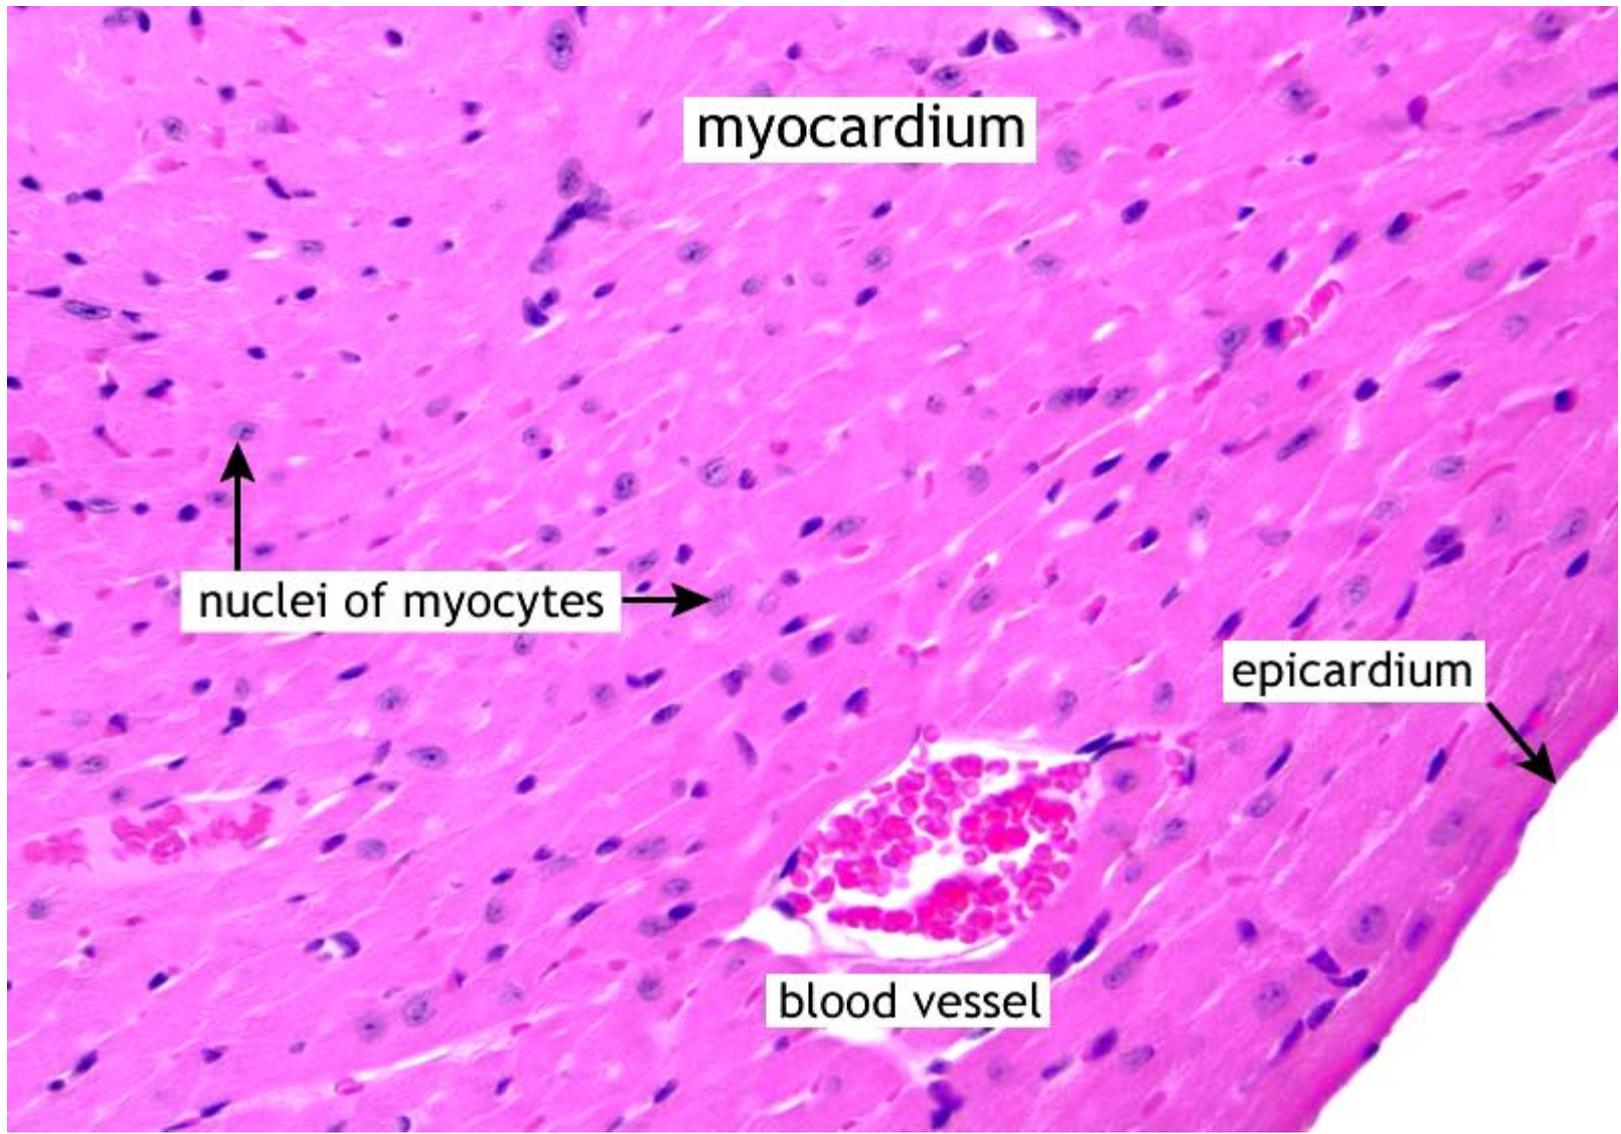

Эндокард и миокард

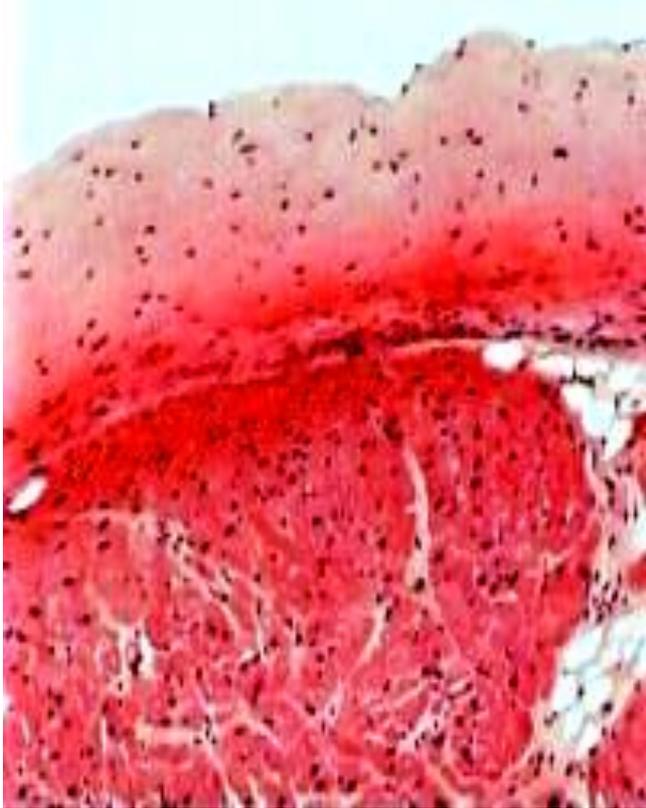

Функциональные волокна миокарда
на продольном и поперечном срезах

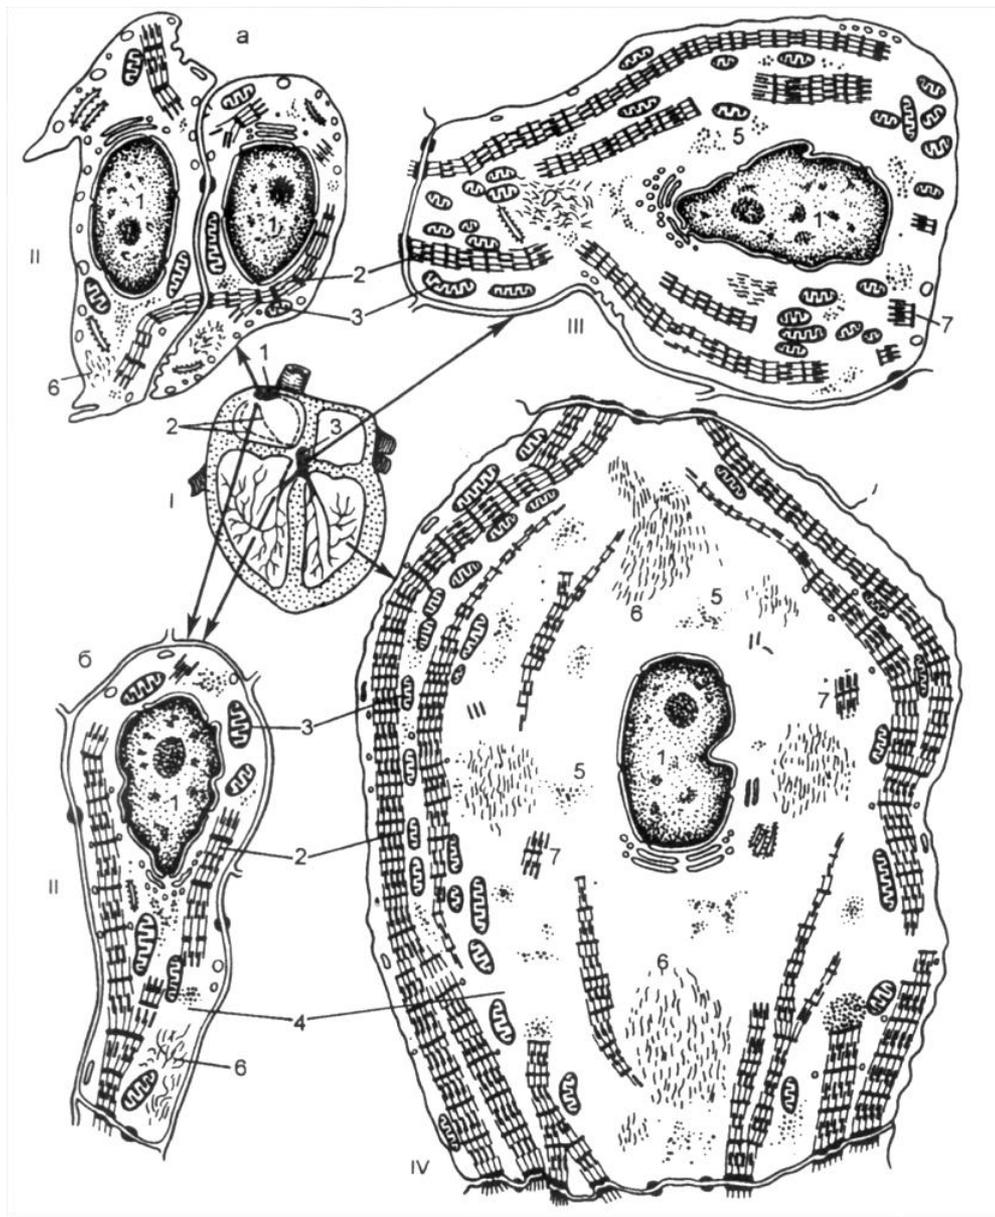

Миокард и эпикард

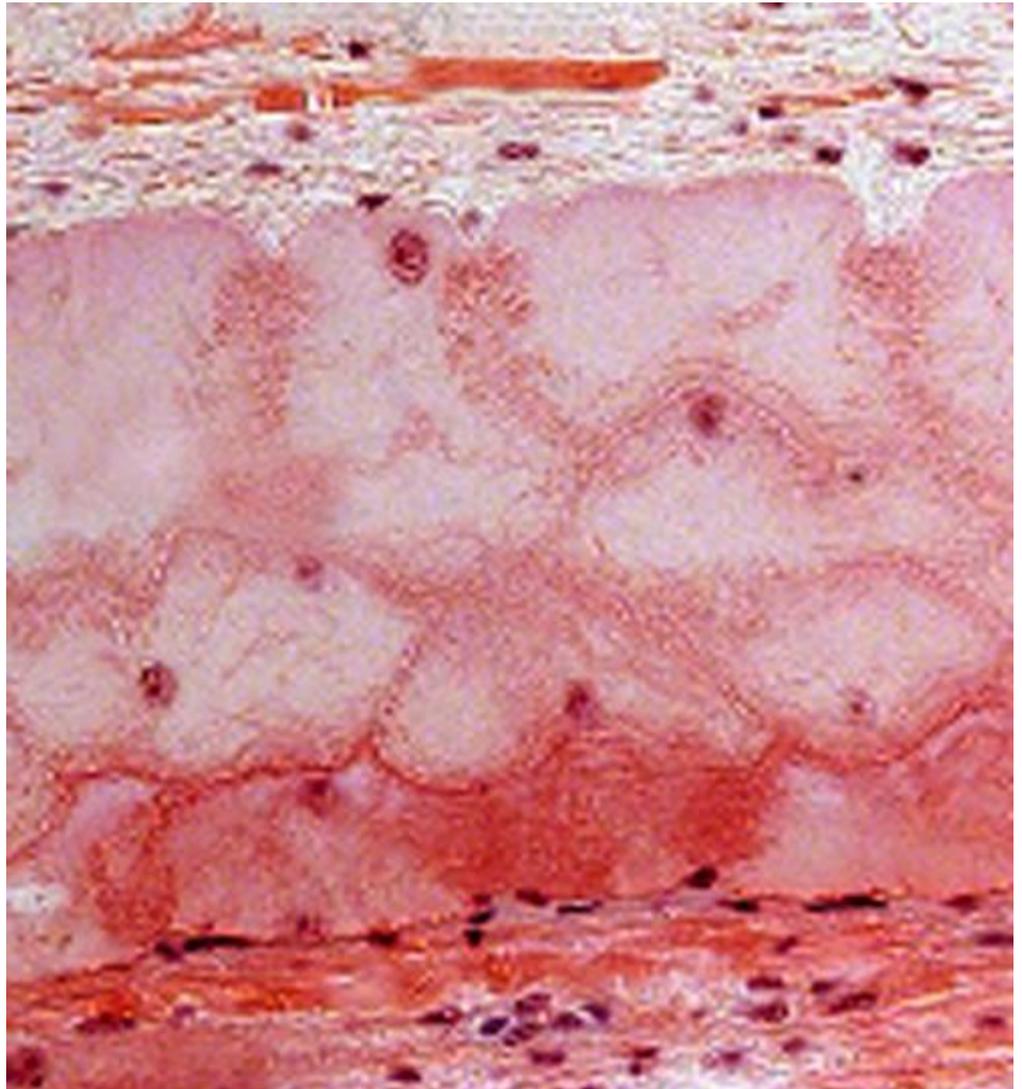

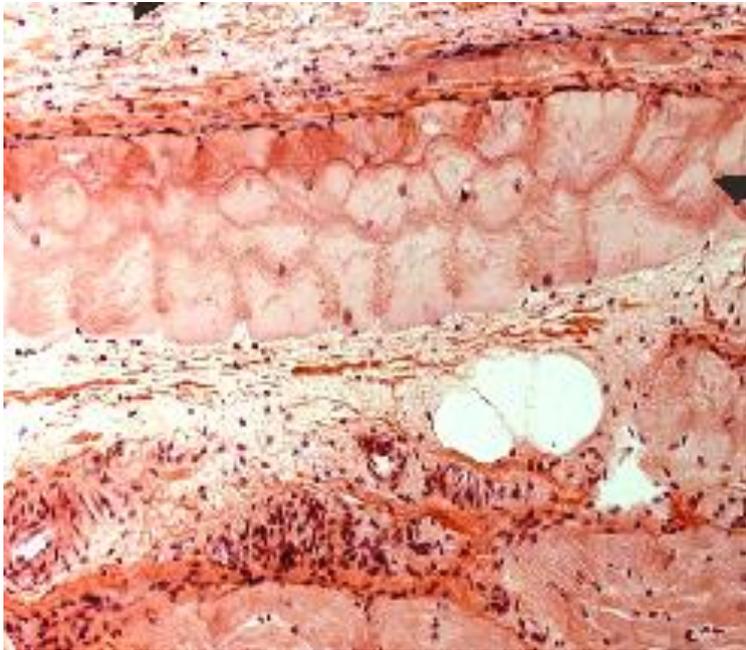

Эндокард

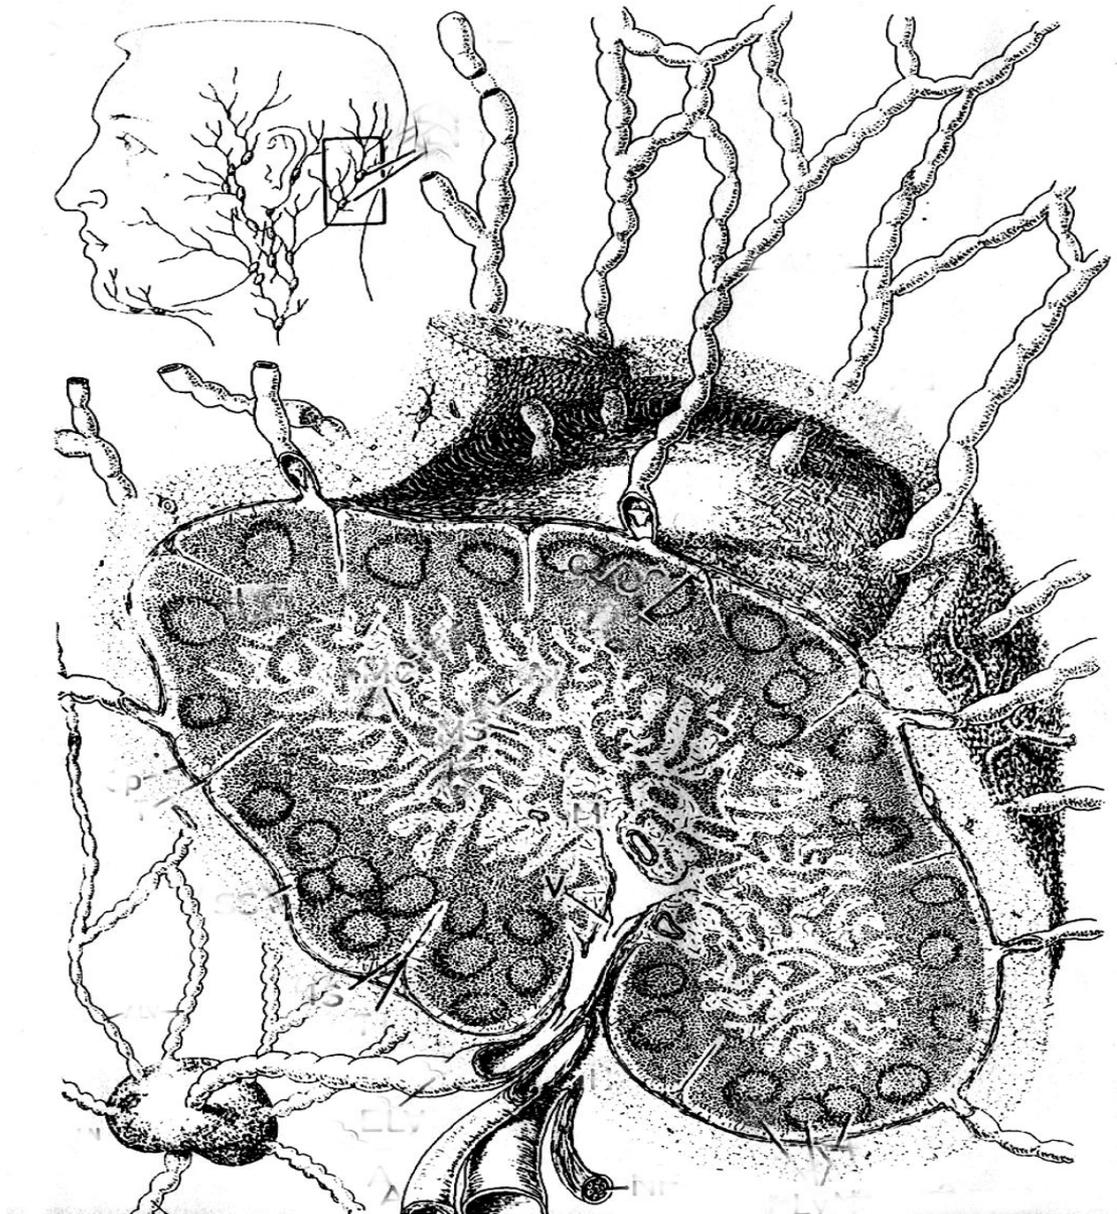

Эпикард

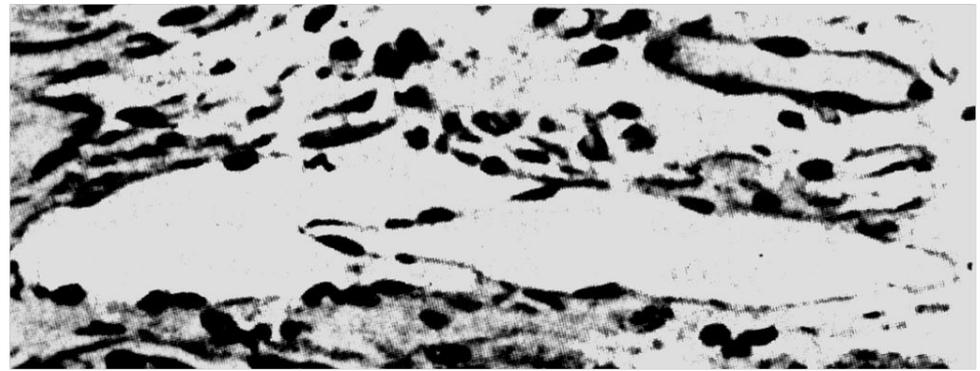

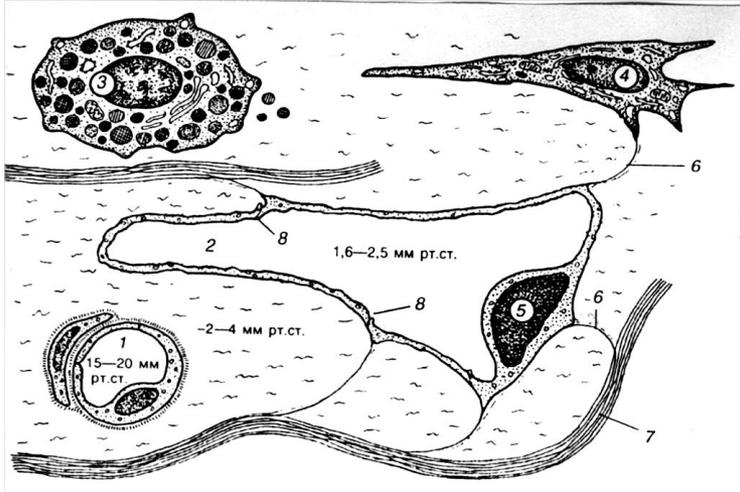

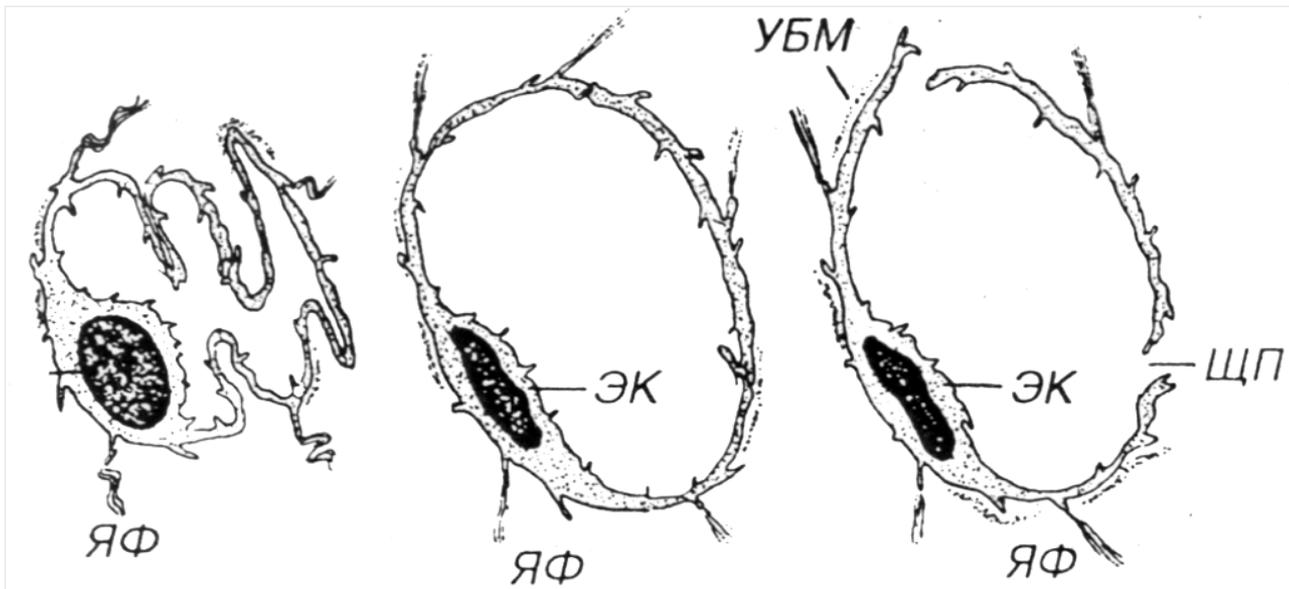

Элементы проводящей системы сердца

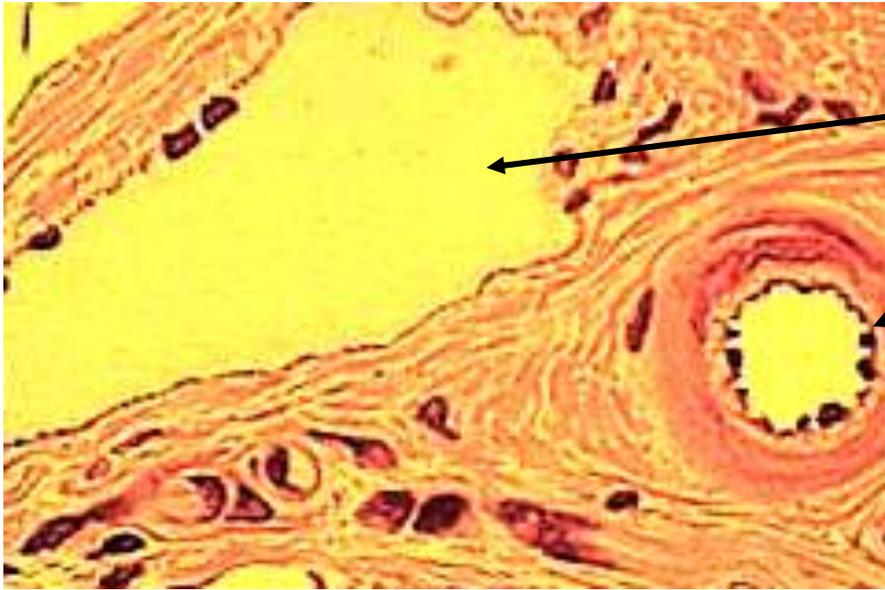

Волокна Пуркинѣ сердца

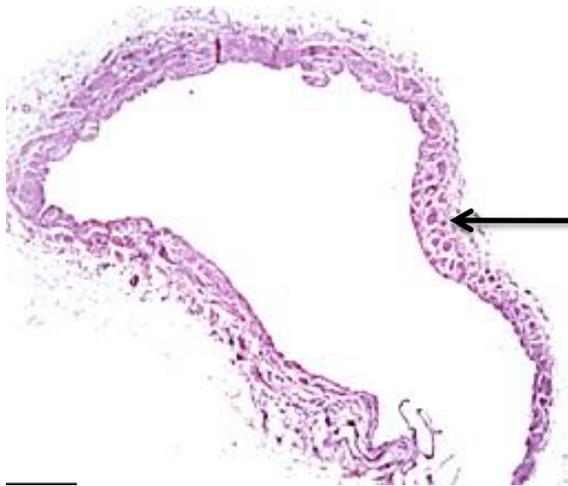

Лимфатические сосуды и лимфоузел

Лимфатические капилляры

Лимфатический капилляр
и артериола

Грудной
лимфатический
проток
